Data Controller (96.3%):

Highlights We at Meta want you to understand what information we collect, and how we use and share it.

Data Controller (98.0%), Personal Data (82.9%):

What information do we collect?

Processing (97.0%):

How do we transfer information?

Data Subject (92.9%), Personal Data (86.5%):

How do we use your information?

Required Purpose (86.0%):

Some information is required for our Products to work.

Required Purpose (70.8%):

Other information is optional, but without it, the quality of your experience might be affected.

Required Purpose (89.2%):

You can update these settings to shape your experience.

Third Party (97.8%):

How do we share information with third parties?

Retention (85.1%):

In some cases information is de-identified, aggregated, or anonymized by third parties so that it no longer identifies individuals before its made available to us.

Required Purpose (97.4%):

Highlights We use information we collect to provide a personalized experience to you, including ads, along with the other purposes we explain in detail below.

Data Source (66.6%):

For some of these purposes, we use information across our Products and across your devices.

Automated Decision Making (95.1%), Processing (99.2%):

The information we use for these purposes is automatically processed by our systems.

Automated Decision Making (66.6%), Processing (97.3%):

But in some cases, we also use manual review to access and review your information.

Non-Personal Data (72.9%), Required Purpose (90.3%), Third Party (86.4%):

To use less information thats connected to individual users, in some cases we de-identify or aggregate information or anonymize it so that it no longer identifies you.

Required Purpose (98.9%):

Here are the ways we use your information: To provide, personalize and improve our Products We use information we have to provide and improve our Products.

Required Purpose (74.8%):

This includes personalizing features, content and recommendations, such as your Facebook Feed, Instagram Feed, Stories and ads.

Consent (83.3%):

We use information with special protections you choose to provide for these purposes, but not to show you ads.

Legitimate Interest (78.6%), Required Purpose (97.8%):

Read more about how we use information to provide, personalize and improve our Products: How we show ads and other sponsored or commercial content How we use information to improve our Products How we use location-related information To promote safety, security and integrity We use

information we collect to help protect people from harm and provide safe, secure Products.

Required Purpose (72.4%), Third Party (98.1%):

Learn more To provide measurement, analytics and business services Lots of people rely on our Products to run or promote their businesses or share content.

Data Source (71.5%), Personal Data (98.0%), Processing (93.2%), Required Purpose (95.0%):

Learn more To communicate with you We communicate with you using information you've given us, like contact information you've entered on your profile.

Data Source (91.9%), Required Purpose (89.8%), Third Party (71.0%):

Learn more To research and innovate for social good We use information we have, information from researchers and datasets from publicly available sources, professional groups and non-profit groups to conduct and support research.

Personal Data (77.8%), Processing (97.9%):

If you do, these integrated partners receive information about you and your activity.

Not Required Purpose (66.6%):

Highlights We don't sell any of your information to anyone, and we never will.

Data Source (63.0%), Non-Personal Data (68.4%), Processing (86.6%), Required Purpose (74.5%), Retention (77.5%), Third Party (95.1%):

Here's the information we collect: Your activity and information you provide Friends, followers and other connections App, browser and device information Information from partners, vendors and other third parties What if you dont let us collect certain information?

Organisational Measure (74.2%), Processing (84.7%):

We also require partners and other third parties to follow rules about how they can and cannot use and disclose the information we provide.

Legitimate Interest (74.7%), Required Purpose (86.6%), Third Party (68.6%):

Heres more detail about who we share information with: Partners Advertisers and Audience Network publishers Partners who use our analytics services Partners who offer goods or services on our Products and commerce services platforms Integrated partners Vendors Measurement vendors Marketing vendors Service providers Service providers Third parties External researchers AI integrations Other third parties We also share information with other third parties in response to legal requests, to comply with applicable law or to prevent harm.

Legal Basis (92.8%):

And if we sell or transfer all or part of our business to someone else, in some cases well give the new owner your information as part of that transaction, but only as the law allows.

Contract (61.1%), Legal Basis (93.0%):

We also process information that we receive about you from other Meta Companies, according to their terms and policies and as permitted by applicable law.

Legal Basis (93.4%), Required Purpose (89.7%):

Why we share across the Meta Companies Meta Products share information with other Meta Companies: To promote safety, security and integrity and comply with applicable laws To personalize offers, ads and other sponsored or commercial content To develop and provide features and integrations To understand how people use and interact with Meta Company Products See some examples of why we share.

Personal Data (68.7%), Required Purpose (61.6%):

Learn more about other information they receive and how they handle your information: When you use an integrated partners product or service When you interact with someone elses content on an integrated partners product or service How integrated partners handle your information Take control Learn more about audiences Privacy Center Manage apps and websites How do we share information with third parties?

Legal Basis (98.3%), Right (81.1%):

You may also have other privacy rights under applicable laws.

Consent (70.6%), Data Protection Officer (80.2%):

In some countries, you may also be able to contact the Data Protection Officer for Meta Platforms, Inc., and depending on your jurisdiction, you may also contact your local Data Protection Authority (DPA) directly.

Processing (81.4%):

How long do we keep your information?

Legal Basis (75.1%), Required Purpose (67.3%), Retention (96.3%):

Highlights We keep information as long as we need it to provide our Products, comply with legal obligations or protect our or others interests.

Required Purpose (97.4%):

Heres what we consider when we decide: If we need it to operate or provide our Products.

Required Purpose (99.2%):

For example, we need to keep some of your information to maintain your account.

Personal Data (92.8%), Retention (75.5%):

For example, messages sent using Messengers vanish mode are retained for less time than regular messages.

Retention (96.5%):

How long we need to retain the information to comply with certain legal obligations.

Legitimate Interest (83.1%), Retention (87.0%):

If we need it for other legitimate purposes, such as to prevent harm; investigate possible violations of our terms or policies; promote safety, security and integrity; or protect ourselves, including our rights, property or products In some instances and for specific reasons, we'll keep information for an extended period of time.

Processing (95.7%):

Read our Policy about when we may preserve your information.

Organisational Measure (73.0%):

Highlights We access, preserve, use and share your information: In response to legal requests, like search warrants, court orders, production orders or subpoenas.

Authority (95.2%), Third Party (83.3%):

These requests come from third parties such as civil litigants, law enforcement and other government authorities.

Required Purpose (98.0%):

In accordance with applicable law To promote the safety, security and integrity of Meta Products, users, employees, property and the public.

Processing (69.1%), Retention (94.0%):

We may access or preserve your information for an extended amount of time.

Organisational Measure (67.1%):

That's why we encourage you to read our Privacy Policy.

Processing (78.3%), Required Purpose (99.4%):

ATTN: Privacy Operations 1601 Willow Road Menlo Park, CA 94025 Why and how we process your information The categories of information we use, and why and how information is processed, are set out below: Why and how we process your information Information categories we use (see 'What Information do we collect?' for more information on each information category) The actual information we use depends on your factual circumstances, but could include any of the following: Personalizing the Meta Products (other than ads, see below): Our systems automatically process information we collect and store associated with you and others to assess and understand your interests and your preferences and provide you personalized experiences across the Meta Products in accordance with our terms.

Data Source (60.2%), Personal Data (97.4%), Processing (98.5%):

Your activity and information you provide: Content you create, like posts, comments or audio
Content you provide through our camera feature or your camera roll settings, or through our
voice-enabled features Metadata about content Types of content you view or interact with, and how
you interact with it Apps and features you use, and what actions you take in them Purchases or
other transactions you make Hashtags you use The time, frequency and duration of your activities
on our Products Friends, followers and other connections App, browser and device information:
Device characteristics and device software What you're doing on your device, like whether our app is
in the foreground or if your mouse is moving (which can help tell humans from bots) Identifiers that
tell your device apart from other users Device signals Information you've shared through your device
settings (like GPS location) Location-related information Information about the network you connect
your device to Reports about our products performance on your device Information from cookies
and similar technologies Information from partners, vendors and third parties Providing ads on the
Meta Company Products: Our ads system automatically processes information that we've collected
and stored associated with you.

Required Purpose (99.0%):

Our ads system uses this information to understand your interests and your preferences and
personalize your ads across the Meta Company Products.

Processing (92.7%):

Then we match the ad to people who might be interested.

Consent (84.0%):

We decide how long we need information on a case-by-case basis.

Processing (97.7%):

For information that WhatsApp shares with Meta see the WhatsApp Help Center article.

Automated Decision Making (91.0%), Personal Data (95.4%), Processing (94.6%), Required Purpose (77.8%), Technical Measure (96.0%):

Your activity and information you provide Friends, followers and other connections App, browser and
device information Providing and improving our Meta Products: The provision of the Meta Products
includes collecting, storing, and, where relevant, sharing, profiling, reviewing and curating, and in
some instances not only automated processing but also manual (human) reviewing, to: Create and
maintain your account and profile, Connect your Meta Products account, including your public profile
information, to an integrated partner to sign in or share your information, Facilitate the sharing of
content and status, Provide and curate features, Provide messaging services, the ability to make
voice and video calls and connect with others, Provide advertising products, Understand and enable

creation of content like text, audio, images and videos, including through artificial intelligence technology we provide, Undertake analytics, and Facilitate your purchases and payments on Meta Pay or other Meta checkout experiences.

Required Purpose (99.3%):

For example, we collect different information if you sell furniture on Marketplace than if you post a reel on Instagram.

Required Purpose (99.6%):

We also use information to develop, research and test improvements to our Products.

Required Purpose (94.5%):

We use information we have to: See if a product is working correctly, Troubleshoot and fix it when its not, Test out new products and features to see if they work, Get feedback on our ideas for products or features, and Conduct surveys and other research about what you like about our Products and brands and what we can do better.

Required Purpose (61.7%):

Highlights The information we collect and process about you depends on how you use our Products.

Personal Data (95.9%), Required Purpose (91.6%):

Your activity and information you provide: Content you create, like posts, comments or audio Your public profile information (including your name, username and profile picture) Content you provide through our camera feature or your camera roll settings, or through our voice-enabled features Messages you send and receive, including their content, subject to applicable law Metadata about content and messages, subject to applicable law Types of content you view or interact with, and how you interact with it Apps and features you use, and what actions you take in them Purchases or other transactions you make, including truncated credit card information Hashtags you use The time, frequency and duration of your activities on our Products Your photo or video selfie if you provide it when you contact us for account support Friends, followers and other connections App, browser and device information: Device characteristics and device software What youre doing on your device, like whether our app is in the foreground or if your mouse is moving (which can help tell humans from bots) Identifiers that tell your device apart from other users Device signals Information youve shared through your device settings Location-related information Information about the network you connect your device to, including your IP address Information from cookies and similar technologies Information from partners, vendors and third parties Promoting safety, integrity and security on and across the Meta Products: The Meta Products are designed to research and help ensure the safety, integrity and security of those services and those people who enjoy them, on and off Meta Products.

Automated Decision Making (79.7%):

We process information we have associated with you and apply automated processing techniques and, in some instances, conduct manual (human) review to: Verify accounts and activity, Find and address violations of our terms or policies.

Legitimate Interest (60.2%), Personal Data (82.5%), Processing (70.6%), Required Purpose (93.7%):

In some cases, the decisions we make about violations are reviewed by the Oversight Board, Investigate suspicious activity, Detect, prevent and combat harmful or unlawful behavior, such as to review and, in some cases, remove content reported to us, Identify and combat disparities and racial bias against historically marginalized communities, Protect the life, physical or mental health, well-being or integrity of our users or others, Detect and prevent spam, other security matters and other bad experiences, Detect and stop threats to our personnel and property, and Maintain the integrity of our Products.

Personal Data (76.4%), Required Purpose (91.3%):

Your activity and information you provide:: Content you create, like posts, comments or audio Content you provide through our camera feature or your camera roll settings, or through our voice-enabled features Messages you send and receive, including their content, subject to applicable law Metadata about content and messages, subject to applicable law Types of content you view or interact with, and how you interact with it Apps and features you use, and what actions you take in them Purchases or other transactions you make, including truncated credit card information Hashtags you use The time, frequency and duration of your activities on our Products Your photo or video selfie if you provide it when you contact us for account support Friends, followers and other connections App, browser and device information: Device characteristics and device software What you're doing on your device, like whether our app is in the foreground or if your mouse is moving (which can help tell humans from bots) Identifiers that tell your device apart from other users Device signals Information you've shared through your device settings Location-related information Information about the network you connect your device to, including your IP address Information from cookies and similar technologies Information from partners, vendors and third parties To communicate with you: We use information you've given us (like contact information on your profile) to send you a communication, like an e-mail or in-product notice, for example: We'll contact you via email or in-product notifications in relation to the Meta Products, product-related issues, research or to let you know about our terms and policies.

Personal Data (98.1%), Required Purpose (80.1%):

We also use contact information like your email address to respond when you contact us.

Personal Data (94.0%):

Your activity and information you provide: Contact information on your profile and your communications with us Content you create, like posts, comments or audio Content you provide through our camera feature or your camera roll settings, or through our voice-enabled features App, browser and device information: Device characteristics and device software What you're doing on your device, like whether our app is in the foreground or if your mouse is moving (which can help tell humans from bots) Identifiers that tell your device apart from other users Device signals Information you've shared through your device settings Location-related information Information about the network you connect your device to, including your IP address Information from cookies and similar technologies.

Processing (82.4%):

Transferring, storing or processing your information across borders, including from and to the United States and other countries: We share information we collect globally, both internally across our offices and data centers and externally with our partners, third parties and service providers.

Scale Non-EU (85.5%):

Learn more about how we transfer information to other countries.

Processing (94.2%), Required Purpose (87.6%):

Because Meta is global, with users, partners, vendors and employees around the world, transfers are necessary: To operate and provide the services described in the terms that apply to the Meta Product(s) you are using.

Processing (97.8%), Required Purpose (95.9%):

Your activity and information you provide: Content you create, like posts, comments or audio Content you provide through our camera feature or your camera roll settings, or through our voice-enabled features Metadata about content and messages, subject to applicable law Types of content you view or interact with, and how you interact with it Apps and features you use, and what actions you take in them Purchases or other transactions you make, including truncated credit card information Hashtags you use The time, frequency and duration of your activities on our Products Your photo or video selfie if you provide it when you contact us for account support Friends, followers and other connections App, browser and device information: Device characteristics and device software What you're doing on your device, like whether our app is in the foreground or if your mouse is moving (which can help tell humans from bots) Identifiers that tell your device apart from other users Device signals Information you've shared through your device settings Location-related

information Information about the network you connect your device to, including your IP address
Information from cookies and similar technologies Information from partners, vendors and third parties
Processing information subject to special protections under applicable laws that you provide so we can share it with those you choose, to provide, personalize and improve our Products and to undertake analytics.

Personal Data (94.2%), Required Purpose (96.9%), Third Party (90.8%):

Your activity and information you provide: Any information with special protections that you choose to provide, such as your religious views, your sexual orientation, political views, health, racial or ethnic origin, philosophical beliefs or trade union membership, or as part of surveys you choose to participate in, and where you have given your explicit consent Receiving and using information from third parties to tailor the ads you see: We'll use information that advertisers, businesses and other partners provide us about activity off Meta Company Products that we have associated with you to personalize ads that we show you on Meta Products, and on websites, apps and devices that use our advertising services.

Consent (67.9%), Third Party (98.7%):

Your activity and information you provide: Information and content you provide, such as your name or email address Information from partners, vendors and third parties Sharing your contact, profile or other information with third parties upon your request: The type of third party and categories of information shared depend on the circumstances of what you ask us to share.

Personal Data (66.2%):

For example: We share your email (or other contact information) or other information you might choose when you direct us to share it with an advertiser so they can contact you with additional information about a promoted product, and If you choose to integrate other apps, games or websites with Meta Products and log in, we'll share your information with the app, game or website to log you in.

Required Purpose (91.2%):

We use this information to: Provide insights and measurement reports to businesses, advertisers and other partners to help them measure the effectiveness and distribution of their or their clients ads, content and services, to understand the kinds of people who are seeing their content and ads, and how their content and ads are performing on and off Meta Products, and Provide aggregated user analytics and insights reports that help users, businesses, advertisers and other partners better understand the audiences with whom they may want to connect, as well as the types of people who use their services and how people interact with their content, websites, apps and services.

Required Purpose (81.3%):

Highlights On Meta Products Learn more about the different cases when your information can be shared on our Products: People and accounts you share and communicate with Content others share or reshare about you Public content With integrated partners You can choose to connect with integrated partners who use our Products.

Required Purpose (86.8%):

Your activity and information you provide: Content you create, like posts, comments or audio Content you provide through our camera feature or your camera roll settings, or through our voice-enabled features Metadata about content Types of content you view or interact with, and how you interact with it Apps and features you use, and what actions you take in them Purchases or other transactions you make Hashtags you use The time, frequency and duration of your activities on our Products Friends, followers and other connections App, browser and device information: Device characteristics and device software What youre doing on your device, like whether our app is in the foreground or if your mouse is moving (which can help tell humans from bots) Identifiers that tell your device apart from other users' Device signals Information youve shared through your device settings Location-related information Information about the network you connect your device to, including your IP address Information from cookies and similar technologies Business intelligence and analytics: To understand, in aggregate, your usage of and across our Products, to accurately count people and businesses; and To validate metrics directly related to these, in order to inform and improve product direction and development and to adhere to (shareholder/earning) reporting obligations.

Required Purpose (99.1%):

Your activity and information you provide: Content you create, like posts, comments or audio Content you provide through our camera feature or your camera roll settings, or through our voice-enabled features Metadata about content and messages, subject to applicable law Types of content you view or interact with, and how you interact with it Apps and features you use, and what actions you take in them Purchases or other transactions you make Hashtags you use The time, frequency and duration of your activities on our Products Friends, followers and other connections App, browser and device information: Device characteristics and device software What youre doing on your device, like whether our app is in the foreground or if your mouse is moving (which can help tell humans from bots) Identifiers that tell your device apart from other users' Device signals Information youve shared through your device settings Location-related information Information about the network you connect your device to, including your IP address Information from cookies

and similar technologies Information from partners, vendors and third parties Identifying you as a Meta Product user and personalizing the ads we show you through Meta Audience Network when you visit other apps: When we show you ads through Meta Audience Network when you visit other apps, our systems automatically process the information we have collected and stored about you and others to identify you as a Meta Product user and tailor the ads you see.

Required Purpose (78.8%):

We'll collect and store your information and use it to send marketing communications to you, like an email, subject to applicable laws.

Processing (94.3%):

Your activity and information you provide: Information and content you provide, including your contact information like email address App, browser and device information: Device identifiers Research and innovate for social good: We carry out surveys and use information (including from researchers we collaborate with) to conduct and support research and innovation on topics of general social welfare, technological advancement, public interest, health and well-being.

Processing (97.6%):

This includes allowing you to share information and connect with your family and friends around the globe; and To fix, analyze and improve our Products.

Personal Data (69.8%):

For example, we analyze information that we have about migration patterns during crises.

Processing (78.0%), Required Purpose (94.9%):

We collect, store, combine, analyze and apply automatic processing techniques like aggregation of information as well as manual (human) review, and share information, as necessary to research and innovate for social good in this way.

Required Purpose (99.5%):

Your activity and information you provide: Content you create, like posts, comments or audio Content you provide through our camera feature or your camera roll settings, or through our voice-enabled features Metadata about content and messages, subject to applicable law Types of content you view or interact with, and how you interact with it Apps and features you use, and what actions you take in them Purchases or other transactions you make Hashtags you use The time, frequency and duration of your activities on our Products Friends, followers and other connections App, browser and device information: Device characteristics and device software What you're doing on your device, like whether our app is in the foreground or if your mouse is moving (which can help tell humans from bots) Identifiers that tell your device apart from other users Device signals

Information you've shared through your device settings Location-related information Information about the network you connect your device to, including your IP address Information from cookies and similar technologies Information from partners, vendors and third parties Anonymizing your information In some cases, we anonymize information we have associated with you, such as your activity on and off our Products, and use the resulting information, for example, to provide and improve our Meta Products, including ads.

Legitimate Interest (76.5%):

Your activity and information you provide: Content you create, like posts, comments or audio Content you provide through our camera feature or your camera roll settings, or through our voice-enabled features Metadata about content Types of content you view or interact with, and how you interact with it Apps and features you use, and what actions you take in them Purchases or other transactions you make Hashtags you use The time, frequency and duration of your activities on our Products Friends, followers and other connections App, browser and device information: Device characteristics and device software What you're doing on your device, like whether our app is in the foreground or if your mouse is moving (which can help tell humans from bots) Identifiers that tell your device apart from other users Device signals Information you've shared through your device settings Location-related information Information about the network you connect your device to, including your IP address Information from cookies and similar technologies Information from partners, vendors and third parties Sharing information with others, including law enforcement and to respond to legal requests.

Legal Basis (63.6%), Personal Data (95.6%):

For example, responses to legal requests where not compelled by law will typically include limited information (such as contact details and login information).

Personal Data (90.6%):

We share information we collect, infrastructure, systems and technology with the other Meta Companies.

Required Purpose (78.5%):

How do the Meta Companies work together?

Authority (90.3%):

Your activity and information you provide: Content you create, like posts, comments or audio Content you provide through our camera feature or your camera roll settings, or through our voice-enabled features Metadata about content, subject to applicable law Types of content you view or interact with, and how you interact with it Apps and features you use, and what actions you take

in them Purchases or other transactions you make Hashtags you use Your photo or video selfie if you provide it when you contact us for account support Friends, followers and other connections App, browser and device information: Device characteristics and device software What youre doing on your device, like whether our app is in the foreground or if your mouse is moving (which can help tell humans from bots) Identifiers that tell your device apart from other users Device signals Information youve shared through your device settings Location-related information Information about the network you connect your device to, including your IP address Information from cookies and similar technologies Information from partners, vendors and third parties For processing information when the law requires it: Where we are under an obligation to disclose information such as, for example, if we receive a valid legal request for certain information such as a search warrant, we will access, preserve and/or share your information with regulators, law enforcement or others.

Processing (84.6%):

Only the information necessary to comply with the relevant legal obligation will be shared or otherwise processed.
