Data controllers and Data Protection Officer B.

Recipient (71.7%), Third Party (71.3%):

Please go [here](#) for more information about how ratings provided by other users are determined and used.

Personal Data (99.4%):

Travel information.

Personal Data (99.6%):

We collect travel itinerary information if you book bus, train or flight travel through Uber's apps.

Personal Data (97.8%):

Location data.

Personal Data (89.3%), Processing (95.3%):

If you request a ride, we track your drivers location during your trip, and link that data to your account.

Required Purpose (95.2%):

This allows us to display where you are on your trip.

Personal Data (81.8%):

We also determine your approximate location, and can determine your precise location if you allow us to do so through the settings on your phone.

Retention (97.4%):

If you do, we will collect your precise location from the time you request a ride or order until the ride is finished or your order is delivered.

Personal Data (96.4%):

You can use Uber without letting us collect your precise location.

Personal Data (96.2%):

However, it may be less convenient for you, including because you will have to type your location

into your phone instead of allowing us to detect it for you.

Personal Data (99.1%):

See Choice and transparency section below for information on how to control whether Uber may collect your precise location data.

Personal Data (74.3%), Required Purpose (85.0%):

Legal information A.

Non-Personal Data (92.1%):

This refers to data about how you interact with Ubers apps and websites.

Non-Personal Data (91.4%), Processing (86.9%), Required Purpose (85.2%):

Scope This notice applies when you use Ubers apps or websites to request or receive products or services, including rides or deliveries.

Personal Data (86.8%):

Device data.

Personal Data (97.2%):

Communications data.

Personal Data (94.7%):

Communication type (phone or text message) Content (including recordings of phone calls solely when users are notified of the recording in advance) Date and time 3.

Authority (82.2%), Required Purpose (72.0%):

Law enforcement officials, public health officials and other government authorities.

Personal Data (98.7%), Third Party (74.0%):

Service providers who help us verify your identity or detect fraud.* Confirmation of whether your account information relates to known persons Name and contact information Information relating to the wireless carrier associated with your phone number Information from government-issued identification documents such as drivers licenses or passports (such as identification numbers, expiration date, date of birth, and gender) d.

Data Source (72.0%):

Uber business partners (account creation and access, and APIs).

Processing (95.7%):

The information received from Uber business partners depends on which partners you use to create or access your Uber account, or the API used.

Recipient (96.3%), Third Party (92.3%):

Marketing partners and service providers.

Data Subject (71.1%), Recipient (91.5%):

Users or others providing information in connection with customer support issues, claims or disputes.

Data Source (84.4%):

Those who use Uber to either request, receive or provide services are referred to as users in this notice.

Required Purpose (99.8%):

How we use data Uber uses data to enable reliable and convenient transportation, delivery, and other products and services.

Personal Data (95.3%), Required Purpose (88.6%):

Payment information (including amount charged and payment method) Proof of delivery (including photo or signature) Special instructions, allergies or food preferences Statistics derived from past trip/order information, such as Averages Cancellation rates Total trips/orders Trip or order details, including Date and time Requested pickup and dropoff addresses Distance traveled Restaurant or merchant name and location Items ordered c.

Required Purpose (97.3%):

We also use data: To enhance the safety and security of our users and services, and to prevent and detect fraud For marketing and advertising To enable communications between users For customer support For research and development To send non-marketing communications to users In connection with legal proceedings 1.

Required Purpose (99.1%):

To provide our services.

Required Purpose (99.5%):

Uber uses data to provide, personalize, maintain, and improve our services.

Processing (72.7%), Required Purpose (99.0%):

This includes: Enabling navigation to pickups and dropoffs, calculating ETAs and tracking the progress of rides or deliveries Matching you with available drivers or delivery people when you request transportation or deliveries Enabling features that involve data sharing, such as ETA sharing and fare splitting Enabling accessibility features Enabling features that involve account linking, such as linking with Uber partners loyalty programs Facilitating and optimizing rental car reservations, pickup and dropoff through Uber Rent Account Data from other sources Demographics Device Ratings Travel c.

Processing (98.3%), Required Purpose (98.1%):

Data sharing and disclosure F.

Processing (78.8%), Required Purpose (82.2%):

Processing payments and enabling payment and e-money products such as Uber Money.

Required Purpose (99.3%):

MexicoDown Small Please go here for information regarding Ubers privacy practices as relates to Mexicos Personal Data Protection Law (Ley Federal de Proteccion de Datos Personales en Posesion de los Particulares), and here for information regarding Uber Money's processing of personal data.

Required Purpose (94.9%):

Providing you with trip or delivery updates and generating receipts.

Required Purpose (97.9%):

For safety, security, and fraud prevention and detection.

Required Purpose (99.7%):

Uber uses data to help maintain the safety and security of our services and users.

Required Purpose (97.1%):

Choice and transparency IV.

Personal Data (97.5%), Processing (97.0%):

This includes: Verifying that you are who you say you are by cross-checking the account information you provide during signup (such as name, email, telephone number, date of birth or payment information) against third-party databases* Verifying that your account is being used by you and not someone else by: Collecting your ID number and/or a photo of your ID, and completing a verification to confirm that the ID is valid, unaltered and that no other account is associated with that document* Collecting a real-time selfie that we compare against the photo on your ID to confirm that its the same person* Verifying your identity and/or age by collecting a photo of your ID when you receive delivery of age-restricted items like alcohol, tobacco or cannabis, or use products like Uber Rent and Uber Connect Verifying, when you rent a bike or scooter through Uber, that you are wearing a helmet, or other mandatory safety gear, by collecting a real-time selfie and using object verification technology Verifying your eligibility to subscribe to an Uber One for Students membership Account Data from other sources (third-party databases) Identity verification info User content b.

Required Purpose (91.8%):

Uber uses data (except Guest Users data) to market its services, and those of Uber partners.

Processing (92.2%), Required Purpose (87.7%):

Request or receive food or other products and services for delivery or pickup, including via your

Uber Eats or Postmates account, or through the guest checkout features that allow you to access delivery or pickup services without creating and/or signing into your account (an Order Recipient).

Required Purpose (96.6%):

Data uses Data used includes This includes investigating and addressing user concerns, monitoring and improving our customer support responses and processes, and identifying potential participants in research studies relating to customer support issues.

Required Purpose (92.4%), Technical Measure (92.2%):

Data uses Data used includes We use data for analysis, research and product development, including training machine learning models.

Authority (79.0%), Consent (88.3%), Contract (71.5%), Required Purpose (79.4%):

Data uses Data used includes We use data to investigate or address claims or disputes relating to use of Ubers services; to satisfy requirements under applicable laws, regulations, operating licenses or agreements, insurance policies; or pursuant to legal process or governmental request, including from law enforcement.

Automated Decision Making (93.9%), Organisational Measure (70.8%), Processing (99.2%):

Core automated processes D.

Required Purpose (93.5%):

Core automated processes Uber uses automated processes to enable certain parts of our services, including functions essential to our business such as matching, pricing and fraud prevention and detection.

Required Purpose (91.2%):

Uber relies on automated processes to enable essential parts of our services, including matching (pairing users requesting and providing transportation and/or delivery services), pricing (calculating the amount owed for such services) and fraud detection and prevention.

Technical Measure (96.1%):

MatchingDown Small Uber uses algorithms to efficiently match Riders and drivers, or delivery people and Order Recipients.

Non-Personal Data (74.1%), Personal Data (98.8%):

Our algorithms then evaluate various factors to determine the best match, including your location, requested destination, the proximity and availability of drivers or delivery people, traffic conditions, and historical data (including, in some markets, whether the specific Rider and driver have previously reported having negative experiences with each other).

Processing (77.6%):

The trip or delivery request is then communicated to the driver/delivery person matched through this process.

Organisational Measure (76.3%), Required Purpose (79.5%):

We are constantly refining our matching process to provide the best experience to all users on our platform and may consider different factors depending on the location where you use Uber.

Required Purpose (90.8%):

This encourages more drivers to serve the busy area over time and shifts Rider demand, to maintain reliability and restore balance.

Required Purpose (96.1%):

Fraud prevention and detectionDown Small Uber uses algorithms and machine learning models to prevent and detect fraud against Uber or our users.

Personal Data (86.7%), Processing (93.4%):

To do this, Uber performs real-time monitoring of information collected from or generated by users, including location data, payment information, and Uber usage.

Processing (87.2%), Required Purpose (95.9%):

We also examine historical data and compare it against real-time data to help detect suspicious behavior.

Technical Measure (98.4%):

Cookies and related technologies Uber and its partners use cookies and other identification technologies on our apps, websites, emails, and online ads for purposes described in this notice, and Ubers Cookie Notice.

Technical Measure (96.6%):

Cookies and related technologies E.

Processing (92.7%):

Cookies are small text files that are stored on browsers or devices by websites, apps, online media, and ads.

Required Purpose (95.7%), Technical Measure (87.9%):

Uber uses cookies and similar technologies for purposes such as: Authenticating users Remembering user preferences and settings Determining the popularity of content Delivering and measuring the effectiveness of advertising campaigns Analyzing site traffic and trends, and generally understanding the online behaviors and interests of people who interact with our services.

Required Purpose (94.8%):

We may also allow others to provide audience measurement and analytics services for us, to serve

ads on our behalf across the internet or for other companies products and services on our apps, and to track and report on the performance of those ads.

Required Purpose (81.7%), Technical Measure (96.7%):

These entities may use cookies, web beacons, SDKs and other technologies to identify the devices used by visitors to our websites, as well as when they visit other online sites and services.

Consent (95.4%), Required Purpose (91.6%):

Data sharing and disclosure We share your data with other users where necessary to provide our services or features, at your request, or with your consent.

Legitimate Interest (92.2%):

We also share data with our affiliates, subsidiaries, service providers and partners, for legal reasons, or in connection with claims or disputes.

Personal Data (98.5%), Required Purpose (90.2%):

In addition, if you create an account using an email address affiliated with an Uber for Business account owner (i.e., your employer), we may share your account data (such as name and email address) with such account owner, to help you expense trips or orders to that Uber for Business account.* We may also share information with that account owner about issues involving your trip, such as safety incidents or complaints.

Data Subject (75.8%), Required Purpose (92.6%):

We may share your data as necessary to determine their referral bonus Trip/order infoTrip count Other Uber Eats users.

Recipient (83.2%):

Depending on the feature used, may include: Account Location Trip/order info Uber business partners.

Recipient (72.1%):

Personalizing marketing communications and ads relating to Uber products and services, and those offered by other companies.

Required Purpose (73.9%):

We share data with companies whose apps or websites you access through Uber, including for purposes of promotions, contests or specialized services.

Recipient (81.1%):

AccountName Phone number Location Trip/order infoRequested pickup/dropoff Insurance companies.

Recipient (87.9%), Required Purpose (78.7%):

If you are involved in an incident, or report or submit a claim to an insurance company relating to Ubers services, Uber will share data with that insurance company for the purpose of adjusting or handling that claim.

Required Purpose (78.5%):

Data necessary to adjust or handle the claim, which may include: Account Communications between users Device Location Trip/order info Usage User content Merchants or restaurants.

Personal Data (98.6%), Retention (72.0%):

If you add a restaurant or merchant loyalty membership number to your user account, we share that data with the restaurant/merchant when you place an order with them.

Third Party (98.7%):

With Uber service providers and business partners These include the third parties, or categories of third parties, listed below.

Third Party (79.4%):

Where a third party is identified, please go to their linked privacy notices for information regarding their collection and use of personal data.

Third Party (92.7%):

Ad and marketing partners and providers, including ad and marketing publishers (such as social media platforms), ad networks and advertisers, third-party data providers, ad technology vendors, measurement and analytics providers, and other service providers.

Third Party (71.1%):

We recommend that you read this along with our privacy overview, which highlights key points about our privacy practices.

Required Purpose (98.7%):

Uber uses these vendors to reach or better understand current and potential users of Uber services or of our advertising partners, and measure and improve ad effectiveness.

Technical Measure (73.9%):

Providers of bikes and scooters that can be rented through Uber apps, such as Lime and Tembici.

Technical Measure (75.7%):

Service providers that provide us with artificial intelligence and machine learning tools and services.

Third Party (77.5%):

Google, in connection with the use of Google Maps in Ubers apps.

Third Party (75.8%):

This also includes ad intermediaries, such as Criteo, Google, Rokr, The Trade Desk, TripleLift

and others.

Personal Data (92.2%), Required Purpose (87.0%):

We share data including advertising or device identifier, hashed email address, approximate location, current trip or order information, and ad interaction data with these intermediaries to enable their services and for such other purposes as are disclosed in their privacy notices.

Required Purpose (76.2%):

With Uber subsidiaries and affiliates We share data with our subsidiaries and affiliates to help us provide our services or conduct data processing on our behalf.

Authority (89.8%), Contract (80.4%), Required Purpose (98.5%):

This includes sharing data with law enforcement officials, public health officials, other government authorities, insurance companies, or other third parties as necessary to enforce our Terms and Conditions, user agreements, or other policies; to protect Ubers rights or property or the rights, safety, or property of others; or in the event of a claim or dispute relating to the use of our services.

Retention (88.0%):

Data retention and deletion Uber retains your data for as long as necessary for the purposes described above.

Retention (97.0%):

Uber retains your data for as long as necessary for the purposes described above, which varies depending on data type, the category of user to whom the data relates, the purposes for which we collected the data, and whether the data must be retained after an account deletion request for the purposes described below.

Required Purpose (82.0%), Retention (85.4%):

For example, we retain data: For the life of your account if such data is necessary to provide our services (such as account data) For defined periods as necessary, including as necessary to meet tax, insurance, legal or regulatory requirements (for example, we retain transaction information for 7 years) You may request that we delete your account through the Privacy menus in the Uber app, or through Ubers website (Riders and Order Recipients [here](#); Guest Users [here](#)).

Required Purpose (94.3%), Retention (88.2%):

Following an account deletion request, we delete your account and data, except as necessary for purposes of safety, security, fraud prevention or compliance with legal requirements, or because of issues relating to your account (such as an outstanding credit or an unresolved claim or dispute).

Retention (83.9%):

We generally delete data within 90 days of an account deletion request, except where retention is

necessary for the above reasons.

Processing (98.7%):

The data we collect Uber collects data: 1.

Personal Data (75.3%):

Privacy settings You can set or update your preferences regarding location data collection and sharing, emergency data sharing, and notifications in Ubers Privacy Center, which is accessible via the Privacy menu in the Uber apps.

Organisational Measure (84.7%):

Share live locationDown Small You can enable/disable Ubers sharing of your mobile device real-time location data with your drivers or delivery people through your device settings, which are accessible via the Account > Settings > Privacy > Location sharing menu in Ubers apps.

Personal Data (94.6%):

Gender identityDown Small You can update your gender information through the Account > Settings > Privacy > Ads and Data > Gender Identity menu in Ubers apps.

Personal Data (90.7%):

Address Email First and last name Login name and password Phone number Payment method (including related payment verification information) Profile picture Settings (including accessibility settings) and preferences Uber partner loyalty program information b.

Personal Data (73.4%):

If you do, we will share data including your name and phone number; approximate location at the time the emergency call was placed; the cars make, model, color, and license plate information; pickup and dropoff locations; and your drivers name.

Required Purpose (92.1%):

Third-party app access Down Small You may authorize third-party applications to access your Uber account data to enable additional features.

Consent (85.1%):

Choice and transparency Uber enables you to access and/or control data that Uber collects, including through: Privacy settings Device permissions In-app ratings pages Marketing and advertising choices You may also request access to or copies of your data, make changes or updates to your account, request account deletion, or request that Uber restrict its processing of your data.

Consent (82.1%):

Marketing and advertising choices Personalized marketing communications from UberDown Small

You can choose here whether Uber may personalize marketing communications (such as emails, push notifications and in-app messages) about Uber products and services.

Personal Data (80.8%):

Data sharing and trackingDown Small You can choose here whether Uber may share your data with third parties, or collect data regarding your visits and actions on third-party apps or websites, for purposes of personalized ads.

Personal Data (70.3%):

Regardless of your location, you can access your data, including your profile data and trip or order history, through the Uber apps or website.

Processing (75.2%):

Uber business partners (debit or credit cards).

Personal Data (96.3%):

Changing or updating dataDown Small You can edit your name, phone number, email address, payment method, and profile picture through the Settings menu in Ubers apps.

Art. 17 Right to erasure (right to be forgotten) (72.4%):

Data retention and deletion III.

Art. 18 Right to restriction of processing (73.5%):

Objections, restrictions and complaintsDown Small You may request that we stop using all or some of your data, or that we limit our use of your data.

Legal Basis (96.7%):

Uber may continue to process data after such objection or request to the extent necessary to provide our services, or required or permitted by law.

Authority (81.7%):

In addition, depending on your location, you may have the right to file a complaint relating to Ubers handling of your data with the data protection authority in your country.

Processing (98.5%):

is the sole controller of the data processed by Uber when you use Ubers services globally, except where it is a joint controller with other Uber affiliates.

Right (76.8%):

(Burgerweeshuispad 301, 1076 HR Amsterdam, the Netherlands), regarding issues relating to Uber's processing of your personal data and your data protection rights.

Legal Basis (86.1%):

Our legal bases for using your data Depending on where you use our services, and our purpose for

using your data, Uber relies on the following legal bases for processing your data: Necessity to perform our contract with you Consent Uber's legitimate interests Legal obligation Data protection laws in some countries and areas, including the EEA, UK, Switzerland, Brazil and Nigeria, only allow Uber to use your data when certain circumstances defined under those laws apply.

Scale Non-EU (72.1%):

BrazilDown Small Please go here for information regarding Ubers privacy practices as relates to Brazils General Data Protection Law (Lei Geral de Protecao de Dados - LGPD).

Scale Non-EU (75.8%):

NigeriaDown Small You may contact Uber here regarding Ubers compliance with, or to request exercise of your rights under, Nigerias Data Protection Act of 2023.

Legal Basis (93.4%):

This is called having a legal basis for using your data.

Required Purpose (93.4%):

This legal basis applies when we must use your data in order to provide the services you request and meet our responsibilities under that contract.

Required Purpose (96.5%):

Calculating rider/recipient prices and driver/delivery person fares Creating or updating your account Enabling services and features For customer support Enabling communications between you and your driver or delivery person Performing necessary operations to maintain our services Personalizing your account Processing payments Providing you with trip or delivery updates, generating receipts, and informing you of changes to our terms, services, or policies Consent This legal basis applies when we notify you of how we will collect and use your data, and you voluntarily agree to that use of your data (in some cases, by enabling that collection and use through a device or Uber setting).

Consent (82.5%):

Where we rely on consent, you have the right to withdraw your consent at any time, in which case we will cease that collection and use of your data.

Required Purpose (72.8%):

Personalizing ads relating to products and services offered by other companies Processing health data, or other sensitive data, depending on the region you live in Legitimate interests This legal basis applies when Uber has a legitimate purpose for using your data (such as for purposes of safety, security, and fraud prevention and detection), its processing of data is necessary for that purpose, and the benefit of such purpose is not outweighed by risks to your privacy (such as

because you would not expect Ubers use of your data, or because it would prevent you from exercising your rights).

Legitimate Interest (80.6%):

This includes objecting to our use of data that is based on Ubers legitimate interests.

Legal Basis (90.1%):

Displaying ads that are targeted based on data about your current trip or delivery request Predicting and helping avoid pairings of users that may result in increased risk of conflict Preventing, detecting and combating fraud Verifying your account, identity or compliance with safety requirements Providing live support from safety experts during trips or deliveries Measuring the effectiveness of the marketing communications and ads Personalizing marketing communications and ads relating to Uber products and services, and those offered by other companies For non-marketing communications For research and development Legal obligation This legal basis applies when we are required to use your data to comply with the law.

Personal Data (96.9%):

Legal framework for data transfers Uber operates, and processes user data, globally.

Legal Basis (88.1%):

We comply with applicable legal frameworks relating to the transfer of data.

Processing (99.2%):

This includes processing of your data on Ubers servers in the United States, and transferring or enabling access to your data globally, in order to: Provide you services wherever you request them Provide you access to your information, such as trip / order history, wherever you request it Provide access to and responses from Ubers customer service agents Respond to requests for information by governments or law enforcement, as necessary Uber is committed to protecting your personal data regardless of where you are located or where, or by whom, your personal data is processed.

Authority (78.6%):

Name and contact information Information relating to law enforcement, health or other investigations b.

Organisational Measure (78.6%):

This includes implementing global measures to protect users data, including: Securing user data when in transit, including through encryption, and at rest.

Authority (73.0%), Scale EU (72.1%):

When we transfer user data from the EEA, UK and Switzerland, we do so on the basis of the necessity to fulfill our agreements with you, consent, adequacy decisions regarding the country of

transfer (available [here](#), [here](#) or [here](#), and transfer mechanisms such as the Standard Contractual Clauses adopted by the European Commission (and their approved equivalents for the UK and Switzerland), and the EU-US Data Privacy Framework (EU-US DPF), the UK Extension to the EU-US DPF, and the Swiss-US Data Privacy Framework (Swiss-US DPF), as set forth by the US Department of Commerce.

Authority (81.3%), Scale Non-EU (75.7%):

UTI has certified to the United States Department of Commerce that it adheres to (1) the EU-US Data Privacy Framework Principles regarding the processing of personal data received from EEA member countries in reliance on the EU-US DPF, and from the UK (and Gibraltar) in reliance on the UK Extension to the EU-US DPF; and (2) the Swiss-US Data Privacy Framework Principles regarding the processing of personal data received from Switzerland in reliance on the Swiss-US DPF.

Right (72.9%):

Data access and portabilityDown Small Depending on where you are located, you may have the right to access your data and to portability of your data.

Third Party (96.1%):

Uber is responsible for the transfer of personal data, subject to its certification to third parties.

Authority (92.8%):

Uber is subject to the investigatory and enforcement powers of the US Federal Trade Commission.

Authority (88.1%):

You may also refer a complaint to your local data protection authority, and Uber will work with that authority to resolve that complaint.

Organisational Measure (90.0%):

If we make significant changes, we will notify you in advance of the changes through the Uber apps or through other means, such as email.

Consent (79.4%):

Use of our services after an update constitutes consent to the updated notice to the extent permitted by law.
