

Data Controller (93.5%), Data Subject (61.9%), Non-Personal Data (84.5%), Personal Data (75.0%), Processing (99.1%), Required Purpose (93.8%):

Facebook Facebook Log in Privacy on Free Basics We are committed to protecting your privacy and security on the Free Basics app, website and services (collectively "Free Basics").

Processing (96.6%):

We limit the information that we collect and share as part of offering Free Basics.

Processing (98.6%), Required Purpose (75.0%), Third Party (91.1%):

We do not store information about the things that you do or the content that you view within any Free Basics service operated by a third party (a "Third-party Service").

Data Controller (95.2%), Non-Personal Data (74.7%), Processing (88.5%), Recipient (75.7%), Required Purpose (90.5%), Third Party (61.5%):

When you use Third-party Services, we will route the request through our servers so that your mobile operator knows to allow you to access that service free of data charges.

Non-Personal Data (62.8%), Personal Data (74.8%), Processing (99.4%), Required Purpose (72.8%):

In order to make all of this work, we receive and store some limited information the domain or name of the Third-party Service accessed through Free Basics and the amount of data (e.g.

Non-Personal Data (82.6%), Processing (96.4%), Technical Measure (83.3%):

This statement provides more information about some of the protections that we include in Free Basics.

Required Purpose (97.0%):

This information also helps us to improve and personalise your Free Basics experience by enabling us to provide "Most Used" services for easy access.

Non-Personal Data (60.8%), Personal Data (97.5%), Retention (72.0%):

We store this information together with your phone number for only 90 days, after which it is aggregated or otherwise de-identified.

Required Purpose (90.0%), Technical Measure (93.3%):

If you are accessing Third-party Services through Free Basics on a browser, we may also store cookies placed by the websites that you access, in an encrypted format, to enable them to function properly without data charges.

Non-Personal Data (74.4%):

Basic device and usage information.

Non-Personal Data (91.1%):

We collect limited device, browser and usage information when you use Free Basics.

Non-Personal Data (93.0%), Personal Data (96.8%):

Specifically, we collect the type of device or browser and operating system that you use, your app version, app ID and device ID, the time and date of your connection, your mobile operator, IP address, phone number, battery and signal strength, country, language setting and the Third-party Services that you search for or use in Free Basics.

Non-Personal Data (82.8%):

Aggregated usage data and Free Basics enrolment.

Non-Personal Data (82.4%), Required Purpose (96.9%), Third Party (83.6%):

To help us and your mobile operator evaluate the success of the Free Basics programme, we may share usage information (specifically, megabytes used and overall level of use of Third-party Services) with your mobile operator in a form that is combined with other Free Basics users who use that mobile operator.

Recipient (67.4%):

We may also share such usage information with the providers of Third-party Services.

Non-Personal Data (66.6%), Third Party (74.4%):

In addition to this aggregated information, we may let mobile operators know which of their customers' specific phone numbers are enrolled in Free Basics.

Required Purpose (74.6%):

Security.

Required Purpose (96.2%), Technical Measure (88.5%):

Our teams work to build security into Free Basics, and this includes using security protocols to help secure Free Basics.

Required Purpose (92.3%):

When using the Free Basics app, Internet traffic is encrypted end to end to protect your privacy, unless a developer chooses to only support HTTP for their service.

Required Purpose (72.6%):

megabytes) used when you access or use that service.

Required Purpose (94.6%):

To help ensure that the appropriate services can be delivered free of data charges when accessed via our Free Basics mobile website, we need to decrypt HTTPS Internet traffic.

Required Purpose (76.5%):

We do not store information associated with that traffic other than what would be available outside of

the encrypted traffic, and encrypted cookies, which allow the Third-party Services to function properly in the Free Basics mobile website.

Required Purpose (87.0%):

Because of our commitment to security, where possible, we will also encrypt any HTTP-only services between our servers and your device to provide added security beyond what normal web browsers do today.

Art. 17 Right to erasure (right to be forgotten) (81.5%):

Deleting your information.

Third Party (95.0%):

Free Basics is brought to you and is operated by Facebook.

Technical Measure (94.7%):

Please also read our terms, Data Policy and Cookies Policy and note that when you use Third-party Services, their own terms and privacy policies apply and you should review them.
