Consent (66.6%), Processing (67.5%):

We use Google adverts if you do not subscribe.

Organisational Measure (74.0%), Processing (60.6%):

You can manage how Google track your data on their management settings.

Personal Data (65.9%), Required Purpose (88.6%):

Disclaimer It is the responsibility of the user to ensure that the information provided by this site is appropriate for their equipment.

Processing (87.9%):

All design calculations must be made and recorded using methods other than our online design guides due to the risks of Javascript floating point or long number errors.

Personal Data (92.1%), Required Purpose (88.9%):

Phone App Privacy Our free or 'paid for' phone apps do NOT access any personal or location data apart from reading your username to save you time typing it.

Processing (94.4%):

We send no information back to our servers.

Consent (89.7%), Processing (82.5%):

No data or communication is sent to or from your phone unless the user chooses to send results data back via email or LRS posting, or download new courses, quizzes, or button lists.

Consent (64.0%), Organisational Measure (73.0%):

We will not send you notifications unless you ask us to contact you.

Consent (85.7%), Data Controller (79.1%):

If you choose to send information back to yourself via the inbuilt email system then you have the option to send a copy to ourselves so that we can send it on to our partners in your area, to potentially forward you a price for the equipment.

Third Party (67.5%):

However, all phone software companies record when and how many people use each program and we do have access to this information.

Personal Data (64.9%), Required Purpose (94.6%):

We only use cookies to save user details and quiz or app scores for your own personal results records.

Processing (99.1%), Technical Measure (65.3%):

Google Analytics Information e4training.com monitors visitor traffic using Google Analytics.

Organisational Measure (60.8%), Personal Data (72.9%):

We do not monitor or have any access to visitor names or details unless you have signed up to our Pro-Training courses.

Data Subject (72.0%), Organisational Measure (60.1%):

For registered users we do NOT track what pages are visited.

Data Subject (83.5%):

User can post the results from their exercises to their own LRS or LMS system.

Not Required Purpose (63.6%):

We do not use any information for marketing or resale in any way.
