

Personal Data (81.4%), Recipient (68.3%), Required Purpose (94.0%):

Privacy Policy Skip to main content Search This Blog MokoGames Blog Home Privacy Policy More... Privacy Policy Get link Facebook X Pinterest Email Other Apps Privacy Policy This privacy policy describes how the games published by MokoGames work with user data.

Non-Personal Data (95.8%):

These services provide the developer with aggregated information on how many players play the game day by day, what was the percentage of the players, who stayed in the game for several days, what is the geographic distribution of the players, how long is the average game session, what in-game events took place, what caused the game crashes.

Required Purpose (76.4%):

This data is not about every player personally, but it is aggregated, to let the developer see the overall statistics.

Processing (97.0%), Required Purpose (89.8%):

The purpose of gathering and analysing this data is to ensure the best user experience for the players.

Processing (86.5%):

The games have analytical SDKs integrated, provided by GameAnalytics.

Processing (62.6%):

The games are monetized by ads.

Processing (99.1%), Required Purpose (99.7%), Third Party (87.2%):

The ad providers collect the player's data to ensure the most relevant ads is shown to the player.
