This Policy explains how we collect and use your data and how you can control your information.

Art. 21 Right to object (79.1%), Consent (79.7%), Data Controller (99.7%), Organisational Measure (94.8%), Required Purpose (92.4%), Retention (96.1%), Scale Non-EU (70.4%), Technical Measure (90.4%), Third Party (83.8%):

Privacy Policy

Snapchat Privacy PrivacyPrivacyPrivacy Center Privacy Principles Privacy by Product Privacy Policy Teens on Snapchat Snap and Ads Privacy Through Security Privacy Policy Effective:

April 7, 2025 Welcome to Snap Inc.s Privacy Policy.

Processing (99.4%):

If youre looking for specific product privacy information, for example, how we process your Chats and Snaps, take a look at our Privacy by Product page.

Personal Data (66.8%), Required Purpose (99.8%):

For example, we process your information to provide you a more personalized experience, including to show you content and information that is most relevant to your experience, as well as more relevant advertisements.

Personal Data (71.1%), Required Purpose (91.1%):

Understanding your interests and preferences help us provide a better product experience.

Personal Data (74.8%), Processing (99.0%), Required Purpose (66.3%), Third Party (62.5%):

Just like in real life, there are some moments you want to share privately with your close friends, and others that you want to share publicly.

Consent (95.2%), Organisational Measure (66.8%):

Also, if you see us refer to our "Terms," we mean the Terms of Service that you agree to when you sign up for our Services.

Art. 21 Right to object (62.3%), Consent (81.3%), Organisational Measure (91.1%), Processing (61.3%):

Lets get started with the controls you have over your information: Control Over Your Information Control over your information and settings is a core part of Snapchat experience.

Organisational Measure (82.0%):

You can access, update, and delete your information, decide who can contact you, and download your data from within the Snapchat app.

Consent (90.4%):

We want you to be in control of your information, so we provide you with a range of tools, including:
Access and update your information.

Art. 17 Right to erasure (right to be forgotten) (87.9%):

Delete your information.

**Art. 17 Right to erasure (right to be forgotten) (75.0%), Consent (82.7%), Processing (95.9%),
Required Purpose (62.0%):**

That's why from day one our philosophy has been to delete content by default and to give Snapchatters control by providing the tools that allow them to decide what happens with their content, like who to share it with or when to save it.

Processing (79.7%):

You can also delete some information within our Services, like content you've saved to Memories, content you've shared with My AI, Spotlight submissions, and more.

Consent (66.0%), Organisational Measure (84.0%):

Control who can see your content.

Organisational Measure (71.7%):

Control who can contact you.

Organisational Measure (94.7%):

Snapchat is intended for close friends and family, that's why we've built controls that help you decide who can contact you.

Organisational Measure (93.9%), Processing (95.3%):

If you receive unwanted communications, you can always block and report that person.

Consent (98.1%):

Change your permissions.

Consent (94.6%):

In most cases, you can change your permissions at any time.

Data Source (92.5%), Personal Data (99.0%):

For example, by default you are findable to others through your phone number and/or email address that you provided.

Organisational Measure (66.0%):

If you no longer want to be findable, you can always change your settings.

Organisational Measure (79.4%), Personal Data (90.8%), Third Party (83.6%):

Or if you provided access to your phone or third party platform contacts to make friending easier,

you can change that later on in your app settings.

Consent (89.0%):

Opt out of promotional messages.

Consent (79.8%), Required Purpose (74.6%):

Just navigate to your settings and you will see the options available to you.

Art. 21 Right to object (84.9%):

Depending on where you live and the particular data we are processing, you may have the right to object to our processing of that information.

Required Purpose (78.4%):

Set advertising preferences.

Data Source (69.6%), Third Party (69.5%):

Information We Collect This section provides you with details on what information we collect: what you provide to us, what we collect when you use Snapchat, and information we receive from other companies or apps you've connected to your Snapchat account.

Processing (96.9%), Technical Measure (73.6%):

When you use our Services, such as Snapchat, we collect information you provide to us, generate information when you use our Services, and in some cases receive data from others.

Consent (85.4%), Processing (97.4%), Required Purpose (77.0%), Third Party (83.8%):

In addition to these documents, we also show in-app notices that provide you more information about our products and services.

Personal Data (87.9%), Required Purpose (97.5%):

Below, we give you more details on the types of settings that are available, link out to our data download tool, and provide instructions on how to delete data or your account.

Personal Data (84.0%):

To do this, we ask you to provide us with account details (information about you, like your name, username, email address, birthday, and phone number).

Personal Data (99.0%):

And if you're a Spectacles user you can learn more on how we collect and use your data in the Spectacles Supplemental Privacy Policy.

Personal Data (92.5%):

When you set up your profile, you'll also provide us with profile details (like your Bitmoji and profile picture).

Personal Data (97.8%), Required Purpose (95.0%):

If you use our commerce products to buy something, like those latest sneakers, we may ask you for payment and related information (like your physical address, so we can ship the product to you, payment information, so we can process the payment, and transaction history).

Personal Data (99.1%), Processing (86.7%):

Of course, you'll also provide us with information you send through or save within our Services, including content and information about that content, and content you share and generate with our AI Features (content, or Inputs, including text, images, video, audio, precise location, and engagement, used to generate content and responses, or Outputs).

Required Purpose (98.3%):

This helps us better understand the way our community uses our Services so that we can make improvements.

Non-Personal Data (83.0%), Personal Data (74.0%), Processing (96.5%), Technical Measure (66.9%):

This includes usage information (information about how you interact with our Services for example, which Lenses you view and apply, your premium subscriptions, Stories you watch, and how often you interact with other Snapchatters) and content information (information about content you create or provide, your engagement with the camera and creative tools, your interactions with My AI, and metadata for example, information about the content itself like the date and time it was posted and who viewed it).

Personal Data (69.2%), Required Purpose (99.0%):

Content information includes information based on the content of the image, video, or audio so if you post a Spotlight of a basketball game, we may use that information to show you more content on Spotlight about basketball.

Non-Personal Data (96.9%), Organisational Measure (60.5%), Personal Data (99.0%), Processing (99.6%), Technical Measure (98.1%):

This also includes device information (such as your hardware or software, operating system, device memory, advertising identifiers, apps installed, browser type, information from device sensors that measure the motion of your device or compasses and microphones, including whether you have headphones connected, and information about your wireless and mobile connections), location information (IP address), information collected by cookies and similar technologies, depending on your settings, (cookies, pixels (small graphic data that recognize user activity, such as if and how often a user has visited a website), web storage, unique advertising identifiers), and log information (such as details about how you've used our Services, access times, pages viewed, IP address, and

unique identifiers like cookies).

Consent (72.3%), Personal Data (95.8%), Processing (97.7%), Technical Measure (69.9%):

If you've explicitly granted device-level permissions, device information may also include information about your device phonebook (contacts and related information), images and other information from your device's camera, photos, and microphone (like the ability to take photos, videos, view stored photos and videos, and access the microphone to record audio while recording video), and location information (precise location through methods like GPS signals).

Recipient (65.9%), Third Party (98.4%):

Data We Receive From Others The last category of data we collect is information about you that we may receive from others, such as other users, our affiliates, and third parties.

Personal Data (99.0%), Processing (98.1%), Required Purpose (99.8%), Third Party (92.2%):

This includes linked third-party service data (information we get when you link your Snapchat account to another service), data from advertisers (information from advertisers, app developers, publishers, and other third parties to help target or measure the performance of ads), contact info from other Snapchatters or third parties (if another Snapchatter uploads their contact list which includes your information, we may combine that with other information we have about you to better understand who you may want to communicate with).

Personal Data (94.2%), Required Purpose (99.3%), Third Party (97.8%):

Or, if you provide us with your contact information, we may use that to determine if we can communicate with you in other ways, like SMS, email, or other messaging services), and data relating to potential violations of our Terms (we may receive information from third parties, including website publishers, social network providers, law enforcement, and others, about potential violators of our Terms of Service and Community Guidelines).

Required Purpose (97.7%):

Among other things, we use the information we collect to provide you with personalized products and Services that we work hard to build and improve.

Processing (93.0%), Required Purpose (98.9%):

Keep Things Up & Running (i.e., operate, deliver, and maintain our Services) We use the information we collect in order to operate, deliver, and maintain our Services.

Personal Data (82.2%), Processing (89.4%), Required Purpose (99.8%):

For example, by delivering a Snap you want to send to a friend or, if you share your location on Snap Map, to show you suggestions like places you might like in your neighborhood, content others have posted to the Map, or your friends if they're sharing their location with you.

Required Purpose (89.7%):

In some cases you may want to share content with your friends, and in other instances you may want to share it with the public.

Processing (92.0%), Required Purpose (96.6%):

We also use some of your information to help keep our products up to date, for example to make sure that our Services work with the latest operating systems and devices.

Required Purpose (93.0%):

To do so, we use information about you across different areas of the Services in order to add context to your Snapchat experience.

Required Purpose (97.5%):

Personalize Your Experience & Give Context We offer personalized Services to Snapchatters.

Required Purpose (83.0%):

Personalization can also help with suggesting friends or recommending a new friend to send a Snap to based on who you Snap with the most.

Required Purpose (96.1%):

We may show recommended places on the Snap Map, generate stickers, or even generate Snaps and other content using AI, infer your interests based on your content or activity, or customize the content we show you, including ads.

Required Purpose (76.2%):

Personalization also includes tailoring your experience based on who you interact with most and what your friends are doing, including showing you content your friends create, like, or enjoy on Spotlight or Place recommendations that are popular with your friends.

Required Purpose (79.1%):

Our goal is to continuously provide you with more relevant and interesting content.

Personal Data (71.3%), Technical Measure (96.5%):

For example, if you watch a lot of sports content, but skip content with hair and makeup tips, our recommendation algorithms will prioritize sports, but not those makeup tips.

Automated Decision Making (93.8%):

For example, we automatically tag content with labels based on the content, your location, or the time of day.

Required Purpose (98.0%):

We use your interests and preferences from the information we've collected to personalize, target, and measure ads.

Consent (72.3%):

You can learn about the different types of advertising and your choices about which ads you receive [here](#).

Processing (82.5%), Required Purpose (93.4%):

You can learn more about how we collect, use, and share your information for advertising purposes [here](#).

Third Party (95.1%):

A note about information collected by cookies and other technologies: we may use these technologies to collect information when you interact with Services we offer through one of our partners.

Required Purpose (98.5%):

For example, we may use information collected on an advertisers website to show you more relevant ads.

Required Purpose (80.9%):

Keep in mind, though, that removing or rejecting cookies could affect the availability and functionality of our Services.

Non-Personal Data (83.8%), Required Purpose (71.4%):

This Policy covers our Snapchat app as well as our other products, services, and features, such as Bitmoji, Spectacles, and our advertising and commerce initiatives.

Required Purpose (87.4%):

Develop & Improve Features, Algorithms & Machine Learning Models Our teams are constantly coming up with new ideas for features and ways to improve our Services.

Technical Measure (96.3%):

For example, if you watch barista content on Spotlight, talk to My AI about your favorite espresso machine, or save a lot of coffee-related Snaps in your Memories, we may highlight coffee shops on the Snap Map when you visit a new city or show you content about coffee that you may find interesting or relevant.

Technical Measure (91.5%):

In order to do this, we also develop and improve the algorithms and machine learning models (an expression of an algorithm that combs through significant amounts of data to find patterns or make predictions) that make our features and Services work, including through generative AI features (artificial intelligence capable of generating text, images, or other media, using generative models).

Required Purpose (97.9%):

We use algorithms and machine learning models for personalization, advertising, safety and security, fairness and inclusivity, augmented reality, and to prevent abuse or other Terms of Service violations.

Personal Data (99.1%), Required Purpose (81.5%):

Your information can help us decide what kind of improvements we should make, but we are always focused on privacy and we don't want to use more of your personal information than necessary to develop our features and models.

Required Purpose (95.7%):

Analytics In order to understand what to build or how to improve our Services, we need to understand trends and demand for our features.

Processing (94.5%), Required Purpose (98.9%):

For example, we monitor metadata and trends about Group Chat use to help decide whether we should change parts of the feature, like the maximum size of a Group.

Processing (96.0%), Required Purpose (96.0%):

Studying data from Snapchatters can help us see trends in the ways that people use the Services.

Required Purpose (96.9%):

This helps inspire us to improve Snapchat on a larger scale.

Required Purpose (99.5%):

Based on this information, we will, among other things, create information about our users to help us understand demand.

Required Purpose (98.6%):

Research We conduct research to better understand general consumer interests, trends, and how our Services are used by you and others in our community.

Required Purpose (85.2%):

We perform analytics in order to identify, monitor, and analyze trends and usage.

Required Purpose (97.4%):

This information, along with analytics (as we described above), helps us understand more about our community and about how our Services fit into the lives of those in our community.

Required Purpose (99.3%):

Enhance the Safety & Security of Our Services We use your information to enhance the safety and security of our Services, verify Snapchatter identity, and prevent fraud or other unauthorized or illegal activity.

Required Purpose (93.4%):

For example, we provide two-factor authentication to help protect your account and can send you email or text messages if we notice any suspicious activity.

Processing (92.0%), Required Purpose (77.6%):

We also scan URLs sent on Snapchat to see if that webpage is potentially harmful, and can give you a warning about it.

Required Purpose (94.2%):

Contacting You Sometimes we'll get in touch with you to promote new or existing features.

Required Purpose (89.1%):

For example, we may use the Snapchat app, email, SMS, or other messaging platforms to share information about our Services and promotional offers that we think may interest you.

Required Purpose (88.3%):

Other times, we need to communicate with you to provide information, alerts, or to send messages our users ask us to deliver at their request.

Required Purpose (78.3%):

This may include sending communications through Snapchat, email, SMS, or other messaging platforms, where permitted, to deliver account status updates, security alerts, and Chat or friending reminders; it may also include fulfilling our users request to send invites or Snapchat content to non-Snapchatters.

Required Purpose (99.2%):

In order to provide you, the Snapchatter community, and our business partners with the help needed to resolve issues with our Services, we often need to use the information we have collected to respond.

Required Purpose (95.5%):

Enforce Our Terms & Policies We use the data we collect to enforce our Terms and the law.

Legal Basis (79.1%), Required Purpose (84.2%):

This includes enforcing, investigating, and reporting conduct that violates our Terms, policies, or the law, responding to requests from law enforcement, and complying with legal requirements.

Required Purpose (85.8%):

For example, when unlawful content is posted on our Services, we may need to enforce our Terms and other policies.

Required Purpose (89.6%), Third Party (65.8%):

In some cases, we may also use or share your information to cooperate with law enforcement requests, escalate safety issues to law enforcement, industry partners, or others, or comply with our

legal obligations.

Processing (96.1%):

How We Share Information This section explains who we share information with, what that information may include, and the reasons for sharing that information, including when we need to transfer it outside of the country it was collected from.

Required Purpose (98.5%):

To provide our Services to you and our community, we may share your information with your friends on Snapchat or other Snapchatters.

Consent (71.8%):

For example, the content you post to Stories, or your status as a premium subscriber, can be viewed by your Friends if you allow them.

Required Purpose (82.6%):

When you have enabled Family Center, we share information about the connected teen account to the parent or guardian to provide insight about how the account is used, for example, who your Friends are on Snapchat or which friends you may be sharing your location with.

Required Purpose (98.4%):

For example, we rely on such Service Providers to facilitate payments, measure and optimize the performance of ads, or protect the services.

Third Party (66.6%):

Business and Integrated Partners.

Recipient (95.2%), Required Purpose (97.5%):

We share your information with business and integrated partners in order to provide the Services.

Third Party (72.7%):

This does not include private communications.

Non-Personal Data (94.3%), Required Purpose (60.8%):

We share your information, such as device and usage information, with industry partners working to prevent fraud.

Legal Basis (81.1%):

We share your information as necessary for the following legal, safety, and security reasons: comply with any valid legal process, governmental request, or applicable law, rule, or regulation.

Required Purpose (88.4%):

investigate, remedy, or enforce potential Terms of Service and Community Guidelines violations.

Right (92.3%):

protect the rights, property, or safety of us, our users, or others.

Data Controller (72.1%):

One of the ways we do this is by showing you content that is relevant to you or we think you may enjoy based on the information you share with us.

Required Purpose (97.4%):

We may share your information within those internal subsidiaries as needed to carry out our Services.

Recipient (69.6%):

If we were to sell or negotiate to sell our business to a buyer or possible buyer, we may transfer your information to a successor or affiliate as part of that transaction.

Third Party (91.1%):

Integrated Partners Our Services may contain content and integrations offered by our integrated partners.

Required Purpose (91.0%):

Examples include integrations in Lenses, Camera editing tools, to provide Scan results, and third-party developer integrations.

Required Purpose (96.7%), Technical Measure (91.8%):

On iOS we use Apples TrueDepth camera to improve the quality of Lenses.

Required Purpose (70.8%), Scale Non-EU (94.7%):

To make that possible, we may collect your personal information from, transfer it to, and store and process it in the United States or other countries outside of where you live.

Legal Basis (72.6%), Organisational Measure (87.7%):

Whenever we share information outside of where you live, we ensure safeguards are in place to protect the data as required by law where you live.

Required Purpose (87.8%):

How Long We Keep Your Information In this section we provide you with information on how long we keep your information, why we keep your information, and also highlight how we may need to keep your information to comply with laws, courts, and other obligations.

Legal Basis (76.4%), Retention (87.3%):

As a general rule, we keep information as long as you tell us to, and otherwise as long as we need it to provide our Services, or as required by law.

Retention (87.2%):

For example, if you store something in Memories, we will keep it as long as you need it, but when

you Chat with a friend, our systems are designed to delete Chats you send within 24 hours after your friend reads it (unless you've changed your default settings or decide to save it).

Required Purpose (99.1%):

Here are some more factors we consider when we decide how long to keep your information: If we need the information to operate or provide our Services.

Required Purpose (94.2%):

For example, we store your basic account details like your name, phone number, and email address to maintain your account.

Retention (93.9%):

For example, we maintain your list of friends until you ask us to delete them since friends are key to expressing yourself.

Retention (92.8%):

Similarly, we keep your shared list of contacts until you ask us to remove them in our app settings (note: updating your device permissions may not remove the contacts you've previously shared with Snapchat).

Consent (65.3%):

Conversely, Snaps and Chats sent in Snapchat will be deleted by default from our servers within 24 hours after we detect they've been opened by all recipients or have expired, unless you've changed your default settings or decide to save something, in which case we will honor your choices.

Retention (92.6%):

For example, we store location information for different lengths of time based on how precise it is and which Services you use.

Retention (96.3%):

If location information is associated with a Snap like those saved to Memories or posted to Snap Map or Spotlight we'll retain that location as long as we store the Snap.

Processing (77.5%):

Whether we retain your data depends on the specific feature, your settings, and how you're using the Services.

Retention (95.2%):

How long we need to retain the information to comply with certain legal obligations.

Legitimate Interest (88.5%):

If we need it for other legitimate purposes, such as to prevent harm, investigate possible violations of our Terms of Service or other policies, investigate reports of abuse, or protect ourselves or others.

Legal Basis (82.7%):

Some jurisdictions require that we state our legal basis for processing data for particular purposes.

Processing (93.5%):

Object to processing.

Required Purpose (81.9%):

Our Services are not directed to children under the age of 13, and you must confirm that you are 13 years or older in order to create an account and use our Services.

Organisational Measure (71.8%):

If we have actual knowledge that you are under the age of 13 (or the minimum age at which a person may use the Services in your state, province, or country without parental consent, if greater), we will stop providing Services to you and delete your account and data.

Organisational Measure (73.5%):

Download your data.

Organisational Measure (64.0%):

Updates to the Privacy Policy We may update our Privacy Policy from time to time, and will give you a heads up if we make any changes we think you should know about.

Organisational Measure (71.3%):

Sometimes, we'll let you know by revising the date at the top of the Privacy Policy that's available on our website and mobile application.

Organisational Measure (74.5%):

Other times, we may provide you with additional notice (such as adding a statement to our website's homepages or providing you with an in-app notification).
