Data Controller (94.0%), Data Subject (82.2%), Organisational Measure (80.9%), Processing (96.9%), Retention (94.6%):

As a user of this mobile application, you take on certain risks and responsibilities.

Consent (95.5%), Organisational Measure (77.2%), Processing (99.6%):

All mobile application users open themselves up to certain risks, such as further use of data collected and security of data.

Consent (78.2%), Data Controller (96.3%), Processing (87.7%), Retention (92.5%):

We ask your consent before we collect your data and no mobile application can guarantee absolute security.

Data Processor (81.2%), Required Purpose (68.8%):

AdventHealth and our third-party vendors are responsible for the editorial content, products and services offered through this mobile application.

Consent (63.2%), Processing (87.4%):

We offer services and programs that require your consent and collection of data in order to participate.

Data Source (71.9%), Personal Data (99.4%), Recipient (65.4%):

With exception of Video Visits and personal health information that you upload to your medical record, please be aware that use of this mobile application, its services, programs, and the health information on it cannot replace nor is it intended to serve as a health care provider-patient relationship.

Personal Data (63.6%), Processing (98.5%), Recipient (72.5%), Required Purpose (89.0%):

Camera so you can share files with your health care team and edit your profile, and to permit participants to see you during your Video Visit.

Required Purpose (79.9%):

Microphone so we can hear and talk to each other during your Video Visit.

Personal Data (78.0%):

Files, Images, and External Storage so you can upload and share files with your health care team and edit your profile.

Required Purpose (74.2%):

Bluetooth and Wi-Fi so we can maintain connectivity during your Video Visit.

Processing (78.5%), Required Purpose (88.4%):

International Mobile Equipment Identity so we can understand the device you are using for compatibility and troubleshooting purposes.

Organisational Measure (87.2%):

What You Should Expect: We will strive to maintain your privacy, confidentiality, and security at all times.

Processing (95.3%), Retention (71.1%):

It is our goal to ensure your trust and confidence by providing you with as much information as we can about data collection procedures and information when needed.

Consent (85.0%), Personal Data (97.3%):

We will not intentionally use any personal and/or personal health information without your permission.

Personal Data (89.1%), Processing (96.2%), Required Purpose (98.1%):

We do use non-personal health information which we aggregate for research purposes and to improve usability of this mobile application.

Organisational Measure (83.8%), Processing (77.4%):

We will notify you of all data collection practices by posting such practices on this mobile application, as well as any updates or changes.

Organisational Measure (77.7%):

Your Role, Responsibilities, and Risks: Read all our policies and the relevant notices of privacy practices so you know how our mobile application works and how you will interact with the mobile application.

Personal Data (98.1%), Processing (88.5%):

It is our goal to encrypt your personal and professional information and personal health information before it is transmitted.

Personal Data (99.7%), Processing (96.2%), Recipient (81.4%), Required Purpose (71.4%), Third Party (98.7%):

Although we make every reasonable effort to protect personal information and personal health information from loss, misuse, or alteration by third parties, you should be aware that there is always some risk involved in transmitting information via the Internet and that hackers or thieves do find ways to thwart security systems.

Personal Data (76.1%):

Wi-Fi enhances your technology/network connection with our mobile application for a Video Visit and Bluetooth allows you to use headphones during your Video Visit, but we do not collect your Wi-Fi or Bluetooth device information.

Required Purpose (62.0%):

Also, use of your microphone with our mobile application will not record any conversations, it only allows you and our health care providers to hear and speak to each other during a Video Visit.

Data Source (81.5%), Technical Measure (65.0%):

We use encryption practices to help protect the integrity and privacy of the personal information and/or personal health information you provide to us.

Organisational Measure (78.6%):

We want you to know that this system operates on a secure server and has firewalls.

Organisational Measure (77.3%):

As an added security precaution, all personal information and/or personal health information is kept on servers with firewalls that meet or exceed industry standards to prevent intruders from gaining access.

Automated Decision Making (90.1%):

Information We Collect: We collect technology generated information automatically or by virtue of our technology structure and settings, and information about you personally when you give it to us.

Personal Data (99.5%):

Personal Information At different places on our mobile application, you may be asked to volunteer your name, e-mail, date of birth, address, gender, insurance information and telephone number.

Processing (95.9%):

Understand how we collect data and how it is used.

Required Purpose (76.3%):

We refer to this type of information as "personal information" because it can be used to identify or contact you.

Personal Data (99.6%):

Personal Health Information When personal information is combined with any information on your health or medical status, we refer to this information as "personal health information." Personal health information also includes Fitness and Wellness Data and Video Visit Data.

Personal Data (90.3%):

Fitness and Wellness Data refers to information that is related to your lifestyle including but not limited to height, weight, heart rate, blood pressure, sleep data, blood sugar, diet and/or dietary restrictions, and activity.

Consent (66.6%), Organisational Measure (60.1%), Personal Data (87.6%):

You decide when you want to give us this information when you (1) type it in the mobile application; or (2) connect our mobile application with a third-party mobile application or device that has access to your Fitness and Wellness Data.

Personal Data (98.6%), Required Purpose (74.1%):

Video Visit Data includes personal health information and the name, group ID and policy number of your insurance and your credit card information you provide to pay for the online visit.

Data Source (84.0%), Personal Data (99.3%):

Image Data When you give us personal and/or personal health information, some of that information may be in the format of image data from your camera or other sources.

Personal Data (62.9%), Required Purpose (98.2%):

For example, we collect and use image data to verify your identity when you register for an account, allow participation in a Video Visit, update your profile picture, or capture your insurance information.

Consent (92.8%), Personal Data (79.1%), Processing (98.7%):

The mobile application also collects and uses images when you choose to send images along with a message to your health care provider.

Processing (95.1%):

Understand that your use of our mobile application provides your consent to access the following options on your device so we can provide the services or communications you request from us through this mobile application: Location so we can find health care providers in your area.

Data Source (62.5%), Required Purpose (85.8%):

Files, Media and External Storage If you share files and media with us, we may require your permission to access the data from your mobile devices local data storage, but we will only access the data that is necessary for this mobile application to function.

Processing (93.4%), Required Purpose (81.9%):

The shared data may be used by your healthcare provider for the purpose of diagnosis and treatment.

Non-Personal Data (88.8%), Required Purpose (96.1%):

We call this information "aggregate information" and use it for purposes such as improving the usability, quality, and functionality of the mobile application.

Non-Personal Data (96.5%), Personal Data (89.1%), Processing (88.3%):

Device Information We collect device-specific information (such as your hardware model, operating system version, unique device identifiers, and mobile network information including phone number).

Personal Data (93.6%), Processing (92.6%):

Location Information When you use provider and facility look-up services or register for a Video Visit, we may collect and process information about your actual location.

Required Purpose (92.3%), Technical Measure (77.2%):

We use GPS to determine location and provide content based on your geographical location.

Personal Data (80.4%):

Unique Application Numbers Certain services include a unique application number.

Non-Personal Data (92.0%), Retention (88.4%):

This number and information about your installation (for example, the operating system type and application version number) may be sent to AdventHealth when you install or uninstall that service

or when that service periodically contacts our servers, such as for automatic updates.

Required Purpose (95.8%), Third Party (97.9%):

Who Collects the Data: AdventHealth, independently and through third party vendors, collect information in different sections of this mobile application when you give it to us to receive a service or communication from us, or to register you when you arrive for health care services.

Retention (79.7%):

You will also have the ability to opt-in to information collection when you enter the mobile application or use a service.

Required Purpose (88.4%):

Most information is collected in the following instances: Registration & For Communication In order to have access to many of the services and content available on our mobile application, you may be required to complete a registration form that requests certain information, such as name, date of birth, telephone number, gender, /or e-mail address or the uploading of image data to capture your insurance information or a picture for your account profile.

Personal Data (89.8%), Retention (63.7%):

In addition, we collect your device information and unique application numbers when you create an account on our mobile application.

Personal Data (88.0%), Required Purpose (95.9%):

We may use your registration information to send you an e-mail confirming your registration with our mobile application, to respond to questions from you, or to notify you if there is a problem with any order for goods or services that you placed.

Personal Data (86.7%):

We will collect any image data, files or media shared within an e-mail that you send to us, along with the specific data from the local data storage on your mobile device that is needed to access this information.

Required Purpose (91.3%):

We may also, from time to time, send e-mails, with your permission, on special promotions or newsletters we think may be of interest to you.

Consent (89.6%):

Once you have opted in, we may send information to you.

Consent (69.5%), Personal Data (85.3%):

For example, if you opt in we may send information regarding your specific health condition.

Personal Data (83.4%), Required Purpose (91.4%):

Healthcare Professional Directory Our health care professional directory may ask you for information on your geographic location or zip code in order to identify listed professionals in your area.

Personal Data (84.4%):

Encryption is a form of scrambling and de-scrambling, an added security feature designed to help prevent unauthorized persons from seeing your information.

Non-Personal Data (87.6%), Personal Data (70.7%), Processing (66.4%):

Technology Generated Information Use of our mobile application creates usage data, including but not limited to usage data that tells us which services are popular or how often our users access the mobile application and for how long.

Automated Decision Making (70.9%), Data Controller (63.7%), Third Party (69.5%):

Third Party Application Connections When you allow access to Google Fit or Apple Health to our mobile application, we will automatically collect your Fitness and Wellness Data.

Retention (74.5%):

Receipt of Services Through our Mobile Application We may collect personal/personal health information when you receive services, depending on the service.

Retention (60.5%):

We may change our privacy policy/terms of use without prior notice but will post new changes prominently on the mobile application.

Organisational Measure (61.2%), Required Purpose (92.4%):

How We Use Your Information: We continually seek new ways to maintain your trust as a user and improve our offerings.

Required Purpose (99.4%):

To provide new and better services, we monitor user traffic patterns and try to analyze what our users like and do not like about our current offerings so we can design better services for you.

Required Purpose (94.3%):

We may also use certain information for testing purposes, mobile application development and planning, and during the normal course of maintaining the mobile application.

Non-Personal Data (92.9%), Third Party (87.7%):

In addition to using your information for the purpose it was collected as explained above, you should know that there are circumstances when, in the ordinary course of business, we will share some information about you with a third party: As stated elsewhere, we may share aggregate information on our users, sales, traffic patterns and mobile application usage with our third party vendors.

Authority (93.5%), Legal Basis (82.0%), Not Required Purpose (72.5%), Processing (90.6%),

Required Purpose (75.7%):

We use third party vendors to provide specific services, such as data analysis, data storage, email processing, customer service, sweepstakes or special promotions and require these third party vendors to keep your information confidential and limit their further use to internal business purposes unless otherwise required by law to disclose.

Legal Basis (93.6%), Personal Data (98.3%):

We may share registration data with third parties as permitted by law.

Organisational Measure (83.5%):

In certain limited circumstances, we may be legally compelled to release your personal information or personal health information in response to a court order, subpoena, search warrant, law or regulation.

Legal Basis (86.3%):

In the event that we are compelled to disclose personal information and/or personal health information to a third party, we will notify you unless doing so would violate the law or court order.

Authority (80.6%):

We also reserve the right to cooperate with law enforcement authorities in investigating and prosecuting users that violate our rules or engage in behavior that is harmful (or illegal) to other users.

Organisational Measure (68.5%):

We make diligent efforts to ensure that these third parties are aboveboard; however, we are separate organizations and as such we are not privy to the details of their operations and not responsible for their actions.

Personal Data (97.9%):

Below we provide you with the names of the third party vendors represented on our mobile application and a brief description of the services they provide to us.

Personal Data (94.1%):

Cerner, Athena and Epic The mobile application serves as an interface for patients to view their own records in these electronic medical record systems, including messages, test results, billing, medications, to-dos, and health summaries.

Personal Data (86.3%), Processing (96.9%):

Your medical records are not stored within this mobile application.

Data Controller (75.2%):

Amwell Amwell is a virtual care platform.

Personal Data (81.7%), Processing (99.1%), Required Purpose (85.1%):

Amwell stores your email address, home address, insurance information in image data format or as input into the mobile application, and date of birth to verify your identity and pull up your chart in Cerner, Athena or Epic.

Personal Data (91.3%), Processing (94.1%):

Jumio Jumio is an application that provides real-time identification verification when you create an online account by comparing your photo with your government issued ID.

Personal Data (77.7%), Processing (94.7%), Required Purpose (94.4%):

We then compare the phone number in your medical record with the phone number of the person creating the account as an added layer of security to verify who you are.

Personal Data (99.1%):

Jumio stores your user ID and password for the account you create.

Personal Data (76.1%), Processing (91.8%):

They do not save copies of your photo or government issued ID.

Technical Measure (62.5%):

Salesforce Salesforce is an application that provides online customer service chats and stores online correspondence, which would include any image data, files or media shared within the online correspondence, between you and AdventHealth.

Required Purpose (95.5%):

This allows you to pay for your Video Visit or to pay bills online.

Required Purpose (87.5%):

You may opt in to have them save your credit card information for future transactions.

Data Controller (74.5%):

Apple Maps Apple Maps is a mapping service application developed by Apple Inc.

Personal Data (67.4%), Processing (92.5%), Retention (93.4%):

Remove or Delete Your Information: Business Records You may remove previously provided personal and/or personal health information from AdventHealth business records at any time by contacting us in writing using the address below: AdventHealth 900 Hope Way Altamonte Springs, Florida 32714 Attn: Data Security 407-357-1000 Please understand that we will remove or delete your personal and/or personal health information from our business records to the extent that we are able and as long as it is not otherwise protected by law or being retained for legal purposes.

Processing (78.0%):

Medical Records Personal health information from this mobile application that is also stored in your

medical record may not be removed or deleted from your medical record under this privacy policy/terms of use.

Legal Basis (83.1%), Right (84.3%):

Please read the AdventHealth Joint Notices of Privacy Practices to understand your rights to change or delete medical record information under the Health Insurance Portability and Accountability Act.

Legitimate Interest (72.9%), Retention (89.5%):

Retention of Your Information: We will only retain your personal and/or personal health information for as long as necessary to fulfill the purposes we collect it for, including for the purposes of satisfying any obligations to you, as required by law, and/or for legitimate business purposes permitted by law.

Retention (83.5%):

As a matter of practice, we typically retain personal and/or personal health information for a duration which is determined by considering the amount, nature and sensitivity of the personal and/or personal health information, the potential risk of harm from unauthorized use or disclosure of the information, the purposes for which we process the information and whether we can achieve those purposes through other means, any limitation periods within which claims might be made and retention periods prescribed by law or recommended by regulators, professional bodies or associations.

Retention (73.7%):

However, any personal health information also stored in your medical record will be retained in your medical record indefinitely.

Organisational Measure (73.1%):

Our Children's Policy: We strive to comply with the Child Online Protection Act (COPA) and are committed to protecting the privacy of children.

Organisational Measure (83.6%), Personal Data (97.5%):

We require parental or legal guardian consent to collect personally identifiable information on any child under the age of 13 in order to be in compliance with COPA and will employ an age identification mechanism to prevent children under the age of 13 from entering personally identifiable information on the mobile application where personal/personal health information is collected.

Organisational Measure (72.1%), Required Purpose (60.3%):

When consent is given and we collect personal/personal health identifiable information on children under 13, we will only disclose personal/personal health information if necessary to provide services

offered through this mobile application as requested by a parent or legal guardian and would not further disclose such information unless appropriately authorized.

Technical Measure (86.6%):
