Data Controller (97.6%), Personal Data (99.7%):

At AppBrain we have a few fundamental principles: We dont ask you for personal information unless we truly need it.

Legal Basis (89.4%), Processing (99.3%), Required Purpose (61.3%), Right (95.7%):

We dont share your personal information with anyone except to comply with the law, develop our products, or protect our rights.

Organisational Measure (69.6%):

In our products, we aim to make it as simple as possible for you to control whats visible to the public, seen by search engines, kept private, and permanently deleted.

Data Subject (91.4%), Non-Personal Data (87.6%), Personal Data (97.4%), Processing (99.5%):

Website visitors Like most website operators, AppBrain collects non-personally-identifying information of the sort that web browsers and servers typically make available, such as the browser type, language preference, referring site, and the date and time of each visitor request.

Processing (99.2%), Required Purpose (91.6%):

AppBrains purpose in collecting non-personally identifying information is to better understand how AppBrains visitors use its website.

Processing (97.0%):

From time to time, AppBrain may release non-personally-identifying information in the aggregate,

e.g., by publishing a report on trends in the usage of its website.

Technical Measure (84.1%):

Usage of the AppBrain website is tracked by common industry tracking software (Google Analytics).

Consent (82.2%), Processing (99.0%), Required Purpose (80.5%):

Gathering of personally-identifying information Certain visitors to AppBrains websites choose to interact with AppBrain in ways that require AppBrain to gather personally-identifying information.

Personal Data (97.7%):

For example, we ask visitors who sign up for an AppBrain account to provide a username and email address.

Required Purpose (76.0%):

In each case, AppBrain collects such information only insofar as is necessary or appropriate to fulfill the purpose of the visitors interaction with AppBrain.

Processing (86.3%), Required Purpose (63.3%):

AppBrain does not disclose personally-identifying information other than as described below.

Consent (67.5%), Recipient (66.0%), Required Purpose (92.2%):

Protection of certain personally-identifying information AppBrain discloses potentially personally-identifying and personally-identifying information only to those of its employees, contractors and affiliated organizations that (i) need to know that information in order to process it on AppBrains behalf or to provide services available at AppBrains websites, and (ii) that have agreed not to disclose it to others.

Consent (95.3%), Personal Data (92.5%), Processing (97.5%):

Some of those employees, contractors and affiliated organizations may be located outside of your home country; by using AppBrains websites, you consent to the transfer of such information to them.

Organisational Measure (76.4%), Required Purpose (82.8%), Third Party (64.9%):

Other than to its employees, contractors and affiliated organizations, as described above, AppBrain discloses potentially personally-identifying and personally-identifying information only in response to a subpoena, court order or other governmental request, or when AppBrain believes in good faith that disclosure is reasonably necessary to protect the property or rights of AppBrain, third parties or the public at large.

Required Purpose (78.8%):

We primarily use our various product blogs to communicate this type of information, so we expect to keep this type of email to a minimum.

Data Subject (79.9%), Required Purpose (60.2%):

If you send us a request (for example via a support email or via one of our feedback mechanisms), we reserve the right to publish it in order to help us clarify or respond to your request or to help us support other users.

Required Purpose (90.4%):

AppBrain takes all measures reasonably necessary to protect against the unauthorized access, use, alteration or destruction of potentially personally-identifying and personally-identifying information.

Processing (99.6%), Technical Measure (65.8%):

Cookies A cookie is a string of information that a website stores on a visitors computer, and that the visitors browser provides to the website each time the visitor returns.

Processing (96.1%), Required Purpose (99.7%), Technical Measure (97.9%):

AppBrain uses cookies to help AppBrain identify and track visitors, their usage of AppBrain website, and their website access preferences.

Personal Data (95.9%), Processing (89.9%), Third Party (97.9%):

Business transfers If AppBrain, or substantially all of its assets were acquired, or in the unlikely event that AppBrain goes out of business or enters bankruptcy, user information would be one of the assets that is transferred or acquired by a third party.

Processing (85.2%), Third Party (83.4%):

Ads Ads appearing on any of our websites may be delivered to users by advertising partners, who may set cookies.

Technical Measure (76.7%):

AppBrain visitors who do not wish to have cookies placed on their computers should set their browsers to refuse cookies before using AppBrains websites, with the drawback that certain features of AppBrains websites may not function properly without the aid of cookies.

Required Purpose (60.3%):

These cookies allow the ad server to recognize your computer each time they send you an online advertisement to compile information about you or others who use your computer.

Required Purpose (86.8%):

This information allows ad networks to, among other things, deliver targeted advertisements that they believe will be of most interest to you.

Non-Personal Data (77.4%):

AppBrain Android app The AppBrain android app collects all so-called package names of installed applications on an Android phone and stores it on AppBrain servers.

Non-Personal Data (77.6%), Personal Data (89.5%), Processing (98.2%):

On the AppBrain server, this list of apps is stored together with a phone identifier, and the IP address of the user.

Processing (91.2%):

Apps that don't match any package name we know about from the market data are discarded from further processing.

Processing (89.4%):

App lists and recommendations in the AppBrain app When a user indicates that the list of apps is public, this data can be displayed publicly and also shared via to other site such as twitter, facebook etc.

Organisational Measure (71.9%):

A user can change the privacy settings of app lists at any time.

Organisational Measure (84.4%):

We hold the right to report aggregate statistics on data contained in private lists, in such a way that there is no possibility of deducing apps contained in individual private lists.

Required Purpose (82.0%):

The main goal of collecting data is to provide recommendations of applications by linking app preferences between users.

Personal Data (97.4%), Processing (92.1%), Required Purpose (98.3%):

Any information not directly related to the apps itself (such as the country derived from the IP address, age, and gender) is solely used to better understand which other users might provide valuable signals to provide better application recommendations.

Organisational Measure (87.8%), Processing (70.3%), Required Purpose (83.8%):

Protection of the privacy of users is of the utmost importance to us, and we have taken a number of precautions in presenting data to preserve the privacy of users.

Processing (78.7%):

However a private app lists will never be shared or shown publicly.

Non-Personal Data (69.4%), Personal Data (83.1%):

This includes information about file names, class names, manifest information from the installed APK file.

Personal Data (75.8%):

No personally-identifying or private data is shared in this process.

Non-Personal Data (70.8%):

These apps prominently show an opt-in dialog at the beginning stating that they collect information about the apps a users installs and uninstalls.

Retention (77.6%):

This data is deleted after at most 30 days.

Processing (98.5%), Required Purpose (91.0%), Technical Measure (83.0%):

Its processed only for the purpose of creating popularity lists for showing in those same apps, creating aggregated reports for popularity of apps and analyzing user behavior to improve our products.

Required Purpose (72.9%):

These apps try to collect as minimal data as possible for the proper functioning of our apps and ads.

Technical Measure (81.0%):

Our apps contain our own AppBrain SDK and Google AdMob ads.

Required Purpose (90.8%):

We use analytics to track actions (aggregated over many users) in our apps to improve our apps over time.

Organisational Measure (63.3%):

If you have forgotten your account or cant log in, you can also request account deletion by contacting our support team.

Organisational Measure (91.2%):

AppBrain encourages visitors to frequently check this page for any changes to its Privacy Policy.

Personal Data (96.6%):
