A Note about Push Notifications For our iOS applications, we may send push notifications if the user opts in to receive them.

Automated Decision Making (82.5%):

Apple's push notification process automatically provides us with a token which is identified to a specific device, enabling notifications to be sent to that device through Apple's push notification service.

Required Purpose (98.6%):

The token is used only to send push notifications.

Required Purpose (68.9%):

We send push notifications to communicate information about how to interact with our applications.

Non-Personal Data (64.7%), Organisational Measure (67.4%), Personal Data (64.7%), Technical Measure (74.6%):

Notifications can be turned off through the Notifications tab within iOS Settings. Cookies When you visit our website, we may send cookies to your device that uniquely identify your browser.

Processing (98.7%), Required Purpose (98.9%):

We use cookies to improve the quality of our service by storing user preferences and tracking usage information.

Processing (93.8%):

Use of information we collect is subject to the Privacy Policy in effect at the time such information is collected.

Organisational Measure (97.7%):

If we make changes in the way we use your email address, we will notify you in advance of posting by email.
