

Data Controller (92.6%), Data Processor (62.4%), Non-Personal Data (81.9%), Personal Data (83.5%), Processing (98.3%), Required Purpose (74.0%), Retention (72.0%), Third Party (86.9%):

RadiusLocker - App Privacy Policy Search this site Embedded Files Skip to main content Skip to navigation RadiusLockerHome Contact + Support Us RadiusLocker Home Contact + Support Us More Home Contact + Support Us RadiusLocker App Privacy Policy merry cache miss technologies, Inc (the "Company") only shares user data with 3rd parties to the extent that it directly contributes to providing, improving, and securing the Company's apps/products/software/services ("Product" and "Products").

Data Controller (97.8%):

From here on, "We," "Us," and "Our" refers to the Company.

Legal Basis (94.3%), Processing (97.2%), Third Party (95.3%):

We may also share user data with a 3rd party if We are obligated to meet any applicable law, regulation, legal process or enforceable governmental request.

Personal Data (98.2%), Processing (99.3%):

We collect both non-personal and personal data (in some jurisdictions, even anonymous IDs are considered to be personal data).

Automated Decision Making (97.1%), Retention (77.1%):

=== Automatically Collected Information We shall automatically collect data from You when You use Our Products, and cache this data locally on Your device.

Data Subject (78.7%), Organisational Measure (60.0%), Personal Data (69.9%), Processing (98.1%):

"You" and "Your" refers to any individual who uses Our Products.

Data Controller (95.0%), Data Source (87.6%), Processing (96.3%), Third Party (66.3%):

We shall also provide this data to trusted 3rd party data processors (such as Google LLC ("Google"), and Firebase, Inc.

Processing (99.3%), Scale Non-EU (64.4%), Third Party (69.1%):

("Firebase"), and potentially the subsidiaries and/or sub-processors of any data processors) on servers around the world, and the data processors shall also provide data they've collected to Us.

Consent (86.9%), Processing (99.3%):

Be aware that some of this data may have already been collected and stored by Our data processors before Your use of the Product, or in an ongoing manner, and then provided to Us after You have obtained the Product this is because it's possible that some of Our data processors have

created software/firmware that Your device has accessed in the past, and You have potentially entered other data collection agreements with them that allows them to share data with Us.

Consent (97.5%), Non-Personal Data (98.5%), Personal Data (96.5%):

Data collected can include: Device information: Hardware specifications, device brand and model, device type (e.g., phone or tablet), hardware capabilities, operating system version, mobile operator/carrier, language settings, Product version, Product install/uninstall status.

Personal Data (69.7%):

Crash logs: Crash logs can include a log of the sequence of events from Your usage of the Product or Your device that led to a crash, along with the "Device information" mentioned above.

Non-Personal Data (63.1%):

A crash log shall include other information on events that occurred in Your device's operating system before the crash.

Non-Personal Data (90.2%), Personal Data (70.2%):

The mention of data processors (either explicitly named or by blanket term) in this Privacy Policy shall potentially have the same principles applied to their subsidiaries and/or sub-processors.

Non-Personal Data (63.4%):

If available in the runtime, the plain-text method or function name containing each instruction pointer.

Non-Personal Data (97.7%):

The device's model name, CPU architecture, battery level, battery velocity, physical orientation (integer), current amount of RAM used and total capacity, and current amount of disk space used and total capacity.

Non-Personal Data (79.2%), Personal Data (83.2%):

Location information: When You use the Products, We shall collect and process anonymous information about Your general location (usually only at the country code level, but more in certain cases).

Personal Data (94.9%):

Below is some more detail on what is included in a crash log, please contact Firebase if You need further assistance with understanding this part: Unique identifier (see Unique product identifiers) to deduplicate and link all of Your logged crash data together.

Processing (98.0%):

Unique product identifiers: When You install one of Our Products, at least one unique product identifier is generated.

Required Purpose (84.3%):

If You reinstall Our Products, new identifiers are usually generated that can't be used to directly link Your past interactions with any new interactions.

Required Purpose (74.3%):

Our data processors may generate and cache product identifiers for their internal use, separate from any identifiers potentially used by Us.

Personal Data (93.4%), Processing (99.3%), Required Purpose (87.2%):

Product identifiers are shared with Our data processors when the Product needs to access the Internet for providing parts of the Product's functionality (such as verifying a purchase or for reporting crash logs).

Non-Personal Data (94.0%), Personal Data (93.5%), Processing (92.5%):

Purchase data: If You have purchased the Product, have made purchases from within the Product, or have made a financial contribution (still considered a "purchase") through another method outside of Google Play -- We shall collect and store items such as (but not limited to): unique order identifier codes, order date, currency, amount paid, order country (sometimes Our data processors also supply Us with city and postal code/zip code level of information, country depending), order status, order verification failure counts (in Version 1.x.x of the Product), information about the Product's database integrity (in Version 1.x.x of the Product), and Your IP address.

Processing (92.0%):

Version 2.x.x of the product has less data collection than Version 1.x.x, but We may still have the extra data from when You have used Version 1.x.x of the Product.

Required Purpose (79.7%), Retention (91.9%):

--In Version 1.x.x of the Product: Your IP address is used during the order verification process to help prevent abuse against Our servers, and it is discarded automatically when it is no longer needed.

Personal Data (70.5%):

We don't see Your IP, only Our data processors do.

Personal Data (89.0%), Processing (98.2%):

The data transmitted during the order verification process can include some or all of the purchase data described in this "Purchase data" section, along with product identifiers, and the process shall be logged.

Data Controller (68.5%), Personal Data (97.4%):

In certain sections of the Product, an Internet connectivity check is performed at 1.1.1.1 and 8.8.8.8

(at the time of publishing this Privacy Policy, these IP addresses belong to servers operated by Cloudflare and Google, respectively) before a purchase can begin.

Non-Personal Data (82.7%), Required Purpose (98.1%):

=== How We use the information We've collected from You, Data Retention, and Communication
We use the information We collect from all of Our Products to provide, improve, secure, and personalize them, to develop Our next Products, and to protect the Company and Our users.

Personal Data (76.8%), Processing (84.0%):

If You have made any purchases, Your order information and data about the transaction is stored indefinitely, and secured by Our data processors.

Processing (96.8%):

A list of names of the processes also running on the device at the time of crash.

Processing (87.4%):

The Company processes and stores all of Your information on servers in many countries around the world, therefore We shall process Your information on a server located outside the country where You live.

Retention (88.6%):

Most of Your data potentially stored by Firebase is retained for up to 14 months.

Retention (93.1%):

Your IP address, used temporarily while providing functionality of the Product (such as purchase verification), is usually discarded automatically after a very short time in the case of Version 1.x.x of the Product.

Personal Data (84.8%), Processing (67.2%):

If We have received any Firebase Crashlytics crash reports from Your device via Version 1.x.x of the Product, Your identifier and associated crash reports are only stored temporarily.

Automated Decision Making (65.9%), Retention (73.1%):

This information is automatically discarded by Firebase after 90 days of receipt.

Personal Data (82.7%), Processing (94.6%), Required Purpose (90.8%):

When You contact the Company for Product support, Product feedback, or otherwise, We keep a record of Your communication and anything You have shared with Us in order to assist You.

Consent (70.5%):

Communications can be performed by a standard Gmail account, a Protonmail account, and/or any other platforms You choose to reach Us at.

Personal Data (83.5%), Processing (80.9%):

Content sent to Our email address "mail@merrycachemiss.com" is received by Our Protonmail account as of 2022/06/18, though We may have communication records from You in Our Gmail account if We've reached each other before this date.

Data Controller (71.4%):

"Version" refers to the unique software release levels of the Product distributed.

Personal Data (80.4%), Processing (98.2%):

If You decide to leave a voicemail, the audio content of the recorded message will be automatically emailed to Us in an attachment.

Personal Data (94.5%), Third Party (63.3%):

Your full phone number, the call date, audio content of the call, and the call duration will be recorded by VoIP.ms and viewable by Our employees.

Personal Data (93.8%):

We use VoIP.ms (owned by 9171-5573 Quebec Inc, at the time of publishing this Privacy Policy) for Our inbound phone number and voicemail service.

Consent (85.9%):

By contacting Us in any form, You consent to receiving future communications from Us.

Required Purpose (79.0%):

To maximize Your privacy, please only communicate issues or feedback directly related to the Product.

Contract (72.6%), Organisational Measure (63.0%):

=== Opting out of data collection Version 1.x.x of the Product: You may disable the Firebase Crashlytics crash reporting features of the Product in the End User License Agreement/Privacy Policy section of the Products, which is shown as soon as You use the Product for the first time.

Consent (76.8%):

The potential Firebase Crashlytics crash report data collection won't start if You have hit "DECLINE" in the End User License Agreement/Privacy Policy section, but shall start if this option is enabled and You have instead hit "ACCEPT".

Data Subject (67.8%):

Version 2.x.x+ of the Product: Firebase Crashlytics crash reporting was removed, thus there is no need to opt out, it's already done for you.

Consent (85.5%):

We may still have data from when You have used Version 1.x.x of the Product, if You have opted in to crash reporting and We have received a report.

Processing (96.1%):

=== Information We share We do not share Your information with companies, organizations and individuals outside of the Company unless one of the following circumstances applies: For required external storage and processing by a trusted 3rd party, such as one of Our data processors, in order to provide the Product and the Product's functionality.

Processing (74.2%), Required Purpose (78.0%), Third Party (96.9%):

We are troubleshooting Product crashes, thus some crash logs (full or partial) may potentially be shared publicly if it is necessary to seek assistance from 3rd parties.

Non-Personal Data (93.7%):

We may also publicly share aggregate statistical data on Our users (e.g., The percentage of Our users in certain countries, the percentage of Our users using certain versions of Android, what areas of the world Our sales are most common).

Processing (94.8%):

=== Information security Security for remote transmission and storage of Your data is handled by Our data processors.

Personal Data (68.9%):

We do not sell Your data.

Processing (96.8%):

Transmission of Your data is done over an encrypted connection when possible.

Organisational Measure (65.5%):

This Privacy Policy doesn't apply to the Company's Products that have separate privacy policies that do not incorporate this specific Privacy Policy.

Not Required Purpose (60.7%), Organisational Measure (89.6%), Required Purpose (85.7%):

We implement reasonable precautions and follow industry best practices in order to protect Your information and ensure that such information is not accessed, disclosed, altered or destroyed by unauthorized entities or individuals.

Organisational Measure (72.7%):

This is the case for all entities or individuals who publish items on the Google Play store.

Organisational Measure (78.3%):

However, these measures do not guarantee that Your information will not be accessed, disclosed, altered or destroyed by breach of such precautions.

Organisational Measure (69.4%):

By using the Products, You acknowledge that You understand and agree to assume these risks.

Required Purpose (96.3%), Technical Measure (89.1%):

This site uses cookies from Google LLC to deliver its services and to analyze traffic.

Technical Measure (72.2%):

By using this site, you agree to its use of cookies.
