Data Subject (66.3%):

Users will complete the appropriate annual security awareness program to keep their security privileges.

Technical Measure (71.0%):

E-mail For purposes of this document, email includes point-to-point messages, listserves, and any electronic messaging involving computers and computer networks.

Personal Data (72.8%):

Students are responsible for accessing their email accounts and retrieving all communications sent to the students from the college.

Organisational Measure (63.8%), Processing (92.2%):

The college has adopted email protocol and procedures which are routinely outlined in student publications.

Legal Basis (80.8%):

Email is also generally subject to the Florida Public Records Law to the same extent as it would be on paper.

Personal Data (99.5%):

Examples of inappropriate and unacceptable uses of email may include but are not limited to: Chain mail that misuses or disrupts resources - email sent repeatedly from user to user, with requests to send to others Abusive, threatening, obscene, pornographic, harassing, or hate mail Willful introduction of virus or virus hoaxes Spamming or junk mail or other disseminations that may fail to otherwise accurately identify the sender Any use of web-based or other communication tools that otherwise violates the Family Education Rights & Privacy Act (FERPA) or the Health Insurance Portability and Accountability Act of 1996 (HIPAA) Do not include social security numbers (SSN), IDs or names in the subject lines of an email.

Data Subject (78.4%), Personal Data (99.7%), Processing (72.6%), Required Purpose (71.8%):

o If you receive an email with this information, remove it from the subject line before forwarding or responding Personal or Commercial Use College-provided informational resources are not to be used by anyone for commercial purposes or for personal financial or other gain.

Personal Data (86.7%):

Occasional personal use of college information technology resources for other purposes is permitted when it does not consume a significant amount of those resources, does not interfere with the

performance of the faculty or staff's job, and is otherwise in compliance with this policy.

Processing (95.9%), Required Purpose (64.8%):

In cases when unauthorized use of accounts or resources is detected or suspected, the account owner should change the password and report the incident to the appropriate department or personnel.

Organisational Measure (80.0%):

Users should therefore engage in "safe computing" practices by establishing appropriate access restrictions for their accounts, guarding their passwords and routinely changing all passwords.

Required Purpose (62.1%):

Integrity the property of safeguarding the accuracy and completeness of assets.

Processing (98.7%):

Executing any form of network monitoring which will intercept data not intended for the employee's host, unless this activity is a part of the employee's normal job/duty.

Personal Data (62.3%):

Students, faculty, and staff are responsible for any activity originating from their accounts which they can reasonably be expected to control.

Personal Data (86.8%):

Security of student and financial records on EFSC systems is a highly regulated environment.

Personal Data (98.2%):

All users must adhere to the following rules to maintain the security of records and to ensure an accurate audit trail: Never provide your username, B number, and password to another user.

Non-Personal Data (68.1%):

By doing so, the audit trail is broken, and you may be held accountable for actions in the system you did not perform.

Personal Data (93.6%), Required Purpose (74.6%):

Review of Acceptable Use Policy (AUP) In order to insure that the policies and procedures regarding the use of technology and the Internet by faculty, staff, students, and community users represent a contemporary application of this technology, and to accommodate the change process, the college's Information Technology Department will review this AUP annually.

Organisational Measure (81.0%):

Data will be classified and appropriate security measures will be implemented commensurate with their value, sensitivity and risk.

Legal Basis (97.5%):

Privacy, Access and Security Eastern Florida State College respects the privacy of all visitors to the college's websites as permitted by law.

Processing (99.6%):

This policy covers the use and collection of any information from these visits as well as the protection of that information.

Personal Data (93.8%):

There are four types of information that the college's website may collect during your visit.

Personal Data (96.7%), Technical Measure (97.2%):

These are network traffic logs, website visit logs, cookies, and information voluntarily provided.

Required Purpose (75.2%), Technical Measure (83.8%):

In the course of ensuring network security and consistent service for all users, Eastern Florida State College employs software programs to monitor network traffic, identify unauthorized access or access to nonpublic information, detect computer viruses and other software that might damage college computers or the network, and monitor and tune the performance of the college network.

Personal Data (99.1%):

In the course of such monitoring, these programs may detect such information as e-mail headers, addresses from network packets, and other information.

Required Purpose (69.9%):

Information from these activities is used only for the purpose of maintaining the security and performance of the college's networks and computer systems.

Consent (88.8%), Legal Basis (60.4%), Third Party (83.4%):

Personally identifiable information from these activities is not released to external parties without your consent unless required by law.

Processing (98.4%), Required Purpose (99.0%):

Eastern Florida State College's web sites routinely collect and store information from online visitors to help manage those sites and improve service.

Non-Personal Data (63.4%), Personal Data (99.2%):

This information includes the pages visited on the site, the date and time of the visit, the Internet address (URL or IP address) of the referring site, the domain name and IP address from which the access occurred, the version of browser used, the capabilities of the browser, and search terms used on our search engines.

Non-Personal Data (73.1%):

Implementation Technology and Internet ethics and acceptable use policies and procedures will be

implemented as follows: A full version of the Technology and Internet Ethics and Acceptable Use Policy and procedures will be placed in the Eastern Florida State College Library Resources on the college's intranet.

Personal Data (99.5%):

This site makes no attempt to identify individual visitors from this information: any personally identifiable information is not released to external parties without your consent unless required by law.

Processing (99.5%), Technical Measure (95.5%):

Cookies are pieces of information stored by your web browser on behalf of a web site and returned to the web site on request.

Processing (82.9%), Required Purpose (77.0%):

This site may use cookies for two purposes: to carry data about your current session at the site from one web page to the next, and to identify you to the site between visits.

Third Party (88.1%):

Cookies remain on your computer, and accordingly we neither store cookies on our computers nor forward them to any external parties.

Data Controller (60.4%), Technical Measure (98.3%):

The college's website uses Google Analytics, a web analytics service provided by Google, Inc.

Processing (74.2%):

The college may require users to limit or refrain from specific uses if such use interferes with the efficient operations of the college-wide system.

Personal Data (72.1%), Processing (81.6%):

The information generated by the cookie about your use of the website (including your IP address) will be transmitted to and stored by Google.

Non-Personal Data (61.5%), Personal Data (69.6%), Processing (91.8%), Required Purpose (76.3%):

Google will use this information for the purpose of evaluating your use of the website, compiling reports on website activity for website operators and providing other services relating to website activity, user demographics, and internet usage.

Processing (84.2%), Recipient (72.9%), Third Party (97.6%):

Google may also transfer this information to third parties where required to do so by law, or where such third parties process the information on Google's behalf.

Personal Data (66.2%):

Every user of the college's information system will comply with this information security policy/procedure.

Processing (65.0%):

Organizational email accounts, including those used by student organizations, are held to the same standards as those for individual use by other students, faculty, or staff.

Consent (75.6%):

You may refuse the use of cookies by selecting the appropriate settings on your browser, however please note that if you do this you may not be able to use the full functionality of this website.

Consent (83.0%), Processing (98.7%), Required Purpose (99.5%):

By using this website, you consent to the processing of data about you by Google in the manner and for the purposes set out above. In the course of using these web sites, you may choose to provide us with information to help us serve your needs.

Processing (97.5%), Required Purpose (95.6%):

Requests for information will be directed to the appropriate staff to respond to the request, and may be recorded to help us update our site to better respond to similar requests.

Retention (83.4%):

We do not retain the information longer than necessary for normal operations.

Third Party (62.1%):

In particular, external sites are not bound by the college's online privacy policy; they may have their own policies or none at all.

Personal Data (60.6%):

Ensure the protection of personal data.

Required Purpose (97.6%):
